Mr. Meighen, by leave of the House, introduced a Bill, No. 1, respecting the Administration of Oaths of Office, which was read the first time.

Mr. Speaker reported, That when the House did attend His Excellency the Governor General this day in the Senate Chamber, His Excellency was pleased to make a speech to both Houses of Parliament, and to prevent mistakes, he had obtained a copy which he read to the House as follows:

*Honourable Gentlemen of the Senate:*

*Gentlemen of the House of Commons:*

On your return to your Parliamentary duties, I am glad to be able to congratulate you on the relative prosperity of the country and its comparative freedom from the feeling of unrest which has agitated countries not so fortunately situated. Following the conditions of expansion due to the war, a period of contraction was inevitable. Restriction of credit involving a certain limitation of production and business has been universal, but this Dominion has been less affected than other countries, and a feeling of confidence prevails. A general reduction of the cost of living has set in, and the country, save in certain limited areas, has been blessed with a bountiful harvest.

In spite of this contraction, the annual revenue of the country has been well maintained, and my advisers considered that certain taxes, imposed in part to check extravagant purchasing, had fulfilled their purpose and might be withdrawn. Accordingly, with a few exceptions, these taxes have been remitted, freeing industry and business and thus promoting employment.

Unemployment, the world-wide result of the conditions to which I have referred, though less widespread in Canada than elsewhere, has received the most anxious consideration. Of the charges for the relief of general unemployment, measures have been taken to bear a substantial share, and special measures have been taken to assist disabled and partially disabled ex-service men. These will be submitted to you for approval.

An investigation is being conducted by the Department of Labour into systems of Unemployment Insurance and Old Age Pensions.

There will be submitted to you for approval the important agreement concluded last year with the Governments of the British West Indian Colonies for the purpose of drawing still closer the trade relations between Canada and these Colonies and of improving the means of communication and intercourse.

The First Assembly of the League of Nations was recently held at Geneva. Representatives of forty-one nations, including those of Canada, met and deliberated together in a spirit of harmony that promises much for this great experiment. Much time was necessarily devoted to the work of organization, but other measures were also agreed upon which are calculated to promote stability and good will in international intercourse. Most important of these is the draft scheme for the establishment of a Permanent Court of International Justice which will be submitted to you for approval at an early date.

My advisers are convinced of the necessity for revision of the Customs tariff. In order to secure the most complete information a Committee has conducted an extensive and thorough inquiry, and has secured the views of all parties and interests in every Province. The hearings necessary for this purpose have now been completed, and the conclusions founded thereon will be submitted to you in due course. It is the opinion of my advisers that in such revision regard must be had to the necessities of revenue and as well that the principle of protection to Canadian labour and legitimate Canadian industries, including agriculture, which has prevailed for more than forty years in this country, must be consistently maintained; but that the Customs duties imposed to that end should be no higher than is essential to ensure good standards of living among our working population and to retain and make possible the normal expansion of the industries in which they find employment.

A Bill for the repeal of the Conservation Act will be submitted to you, there being provision made for carrying on the essential functions of the Commission of Conservation in the appropriate Departments of the Government. This measure will, therefore, avoid very considerable duplication of services, and permit consequent saving of expense without detriment to the public advantage.

A Bill amending the Dominion Elections Act to provide for necessary revision of the electoral lists applicable to the vote shortly to be held in the Province of Ontario respecting the Canada Temperance Act will be submitted to you.

Bills relating to Copyrights, the simplification and consolidation of the Income War Tax Act, 1917, and amending Acts, Scientific Research and other matters will be submitted to you.

*Gentlemen of the House of Commons:*

The accounts of the last fiscal year will be laid before you. Estimates for the next fiscal year will be submitted at an early date, making provision for the various services of government. These have been formed with a view to strict economy, having due regard to the obligations of the country and the exigencies of the public service, and any possible contraction, following the expansion of the period of the war, has been diligently sought.

*Honourable Gentlemen of the Senate:*

*Gentlemen of the House of Commons:*

In inviting your careful consideration of the important matters which will engage your attention, I pray that Divine Providence may direct and prosper all your consultations to the safety, honour, and welfare of our Sovereign and this Dominion.

On motion of Mr. Meighen, it was ordered, That the Speech of His Excellency the Governor General to both Houses of Parliament, be taken into consideration on Tuesday next, and that this order have precedence over all other business except the introduction of bills, until disposed of.

On motion of Mr. Meighen, a Special Committee was appointed to prepare and report, with all convenient speed, Lists of Members to compose the Select Standing Committees of this House under Rule 10, said Committee to be composed of Messrs.: Reid (Grenville), Calder, McCurdy, Middlebro, King, Lemieux and Crerar, and that portion of Rule 10 limiting the number of members of the said Committee was suspended in relation thereto.

Mr. Speaker laid before the House the Report of the Chief Electoral Officer, in conformity with Chapter 46, Section 19 of the Dominion Elections Act.

He also laid before the House, the Report of the Joint Librarians of Parliament, which is as follows:—

## REPORT OF THE LIBRARIANS OF PARLIAMENT.

TO THE HONOURABLE THE SPEAKER OF THE HOUSE OF COMMONS.

The Joint Librarians of Parliament have the honour to submit the following report for the year 1920, during only a portion of which they have had charge of the Library.

Mr. A. D. DeCelles, General Librarian, retired on the 1st of June last, having served as Assistant Librarian for five years, and for thirty-five years as General Librarian.

Mr. Martin J. Griffin, Parliamentary Librarian, retired on the 7th of July, having been thirty-five years as Parliamentary Librarian. The present Librarians desire to record their appreciation of the assistance rendered and the information given to them on assuming office by their predecessors who have so recently terminated their long and meritorious services.

In the last Annual Report, and from time to time previously, allusion has been made to the congested state of the Library and the necessity of providing ample and safe accommodation for the thousands of volumes which now overload the shelves of the Library proper, and fill the lower storerooms and vaults. The necessity still exists, and the undersigned feel that neither the complete security of the Library nor its convenient arrangement in respect to the needs of users can be assured under present conditions.

Meanwhile, the Librarians desire to express their appreciation of the fact that two rooms at the north end of the ground floor of the new building have been assigned to the Library. One of these rooms has already been excellently fitted out by the Department of Public Works with steel shelving, and temporary relief will thus be afforded by this opportunity of conveniently placing many thousands of volumes.

A list of donations to the Library, and of Copyright Works will be submitted.

The Supplementary Catalogue embracing the books purchased since the last report is now in the hands of the printer and will shortly be submitted.

Amongst Governmental reports of special interest are the recent Official Despatches, with Maps, issued by the Government of Great Britain relating to the Jutland Battle. Several copies of these have been secured.

Amongst the items in the list of donations which may be specially noted are the papers received from the "League of Nations" comprising:

1. The Official Journal.
2. Verbatim Record of the Proceedings of the Assembly.
3. Verbatim Record of the Proceedings of Committees.
4. Documentary Correspondence submitted for consideration by the Assembly.
5. Treaty Series,—being Treaties and International engagements registered with the League.

Also a set of the Hansard of the British House of Commons owned by the Late Right Honourable Joseph Chamberlain, and covering the period of his Parliamentary career. These books were kindly given to the Canadian Government by the Right Honourable Austin Chamberlain, Chancellor of the Exchequer.

Both in Great Britain and on this continent, the increase in the price of raw material and in costs of labour compared to pre-war days have made a very marked increase in the price of books and periodicals, and added heavily to the cost of binding; and it naturally follows that with a vote barely larger than that of 1914, the range of Library purchases in 1920 was somewhat restricted.

It has been the aim of the Librarians, however, to secure and make available the works of the leading authorities on Constitutional subjects, on Sociology, Economics, History and the various questions which are specially related to the work of Parliament.

In respect to the borrowing and returning of Library books the rules laid down by Parliament are adequate and clear, but not infrequently they are more honoured in the breach than the observance. It is hardly necessary to point out that compliance with the rules is a matter of obvious justice to the many users of the Library and is to the best interests of the Library itself.

All of which is respectfully submitted.

J. de L. TACHE,  
General Librarian

MARTIN BURRELL,  
Parliamentary Librarian.

LIBRARY OF PARLIAMENT,  
Ottawa, February 14, 1921.

*(For the Appendix to this Report, see Sessional Papers No. 41.)*

Mr. Speaker informed the House that the Sergeant-at-Arms, with his approval, had appointed Louis Charles Panet, Esquire, to be his Deputy during the present session of Parliament.

Mr. Meighen delivered a message from His Excellency the Governor General, which was read by Mr. Speaker, as follows:—

DEVONSHIRE.

The Governor General transmits to the House of Commons a certified copy of an approved Minute of Council appointing the Right Honourable C. J. Doherty, Minister of Justice; the Honourable J. D. Reid, Minister of Railways and Canals; the Honourable J. A. Calder, Minister of Immigration and Colonization and President of the Privy Council, and the Honourable E. K. Spinney, to act with the Speaker of the House of Commons, as Commissioners for the purposes and under the provisions of the Eleventh Chapter of the Revised Statutes of Canada, 1906, intituled: "An Act respecting the House of Commons."

Government House,  
Ottawa, 11th February, 1921.

The House then adjourned at 3.50 o'clock, p.m., until to-morrow.

In view of the amendment made to section 3 of the above mentioned Bill fixing the capital stock at one million dollars, the Committee recommend that the difference between the charge on a capital of one million dollars and that of three million dollars, paid by the promoters, be refunded.

Sir Henry Drayton, a Member of the King's Privy Council, laid before the House, —Proceedings of the International Financial Conference held at Brussels in 1920: Volume I—Report of the Conference. Volume II—Verbatim Record of the Debates. Volume III—Statements on the Financial Situation of the Countries represented at the Conference. Volume IV—Public Finance.

Mr. Power moved,—That, in the opinion of this House, the ancient walls and fortifications of the city of Quebec, having for all military purposes become obsolete, it is expedient in order to better preserve these valuable heirlooms as a historical monument for future generations, that their upkeep and control be now vested in the National Battlefields Commission.

After Debate thereon, the said motion was, by leave of the House, withdrawn.

Mr. Casgrain moved,—That, in the opinion of this House, the Governor in Council should cancel the privileges extended to one W. H. Tapley of Montreal, under the provisions of the Ticket of Leave Act, and that he should be rearrested and sent back to the penitentiary to finish the term of the sentence imposed upon him in the best interests of Justice and the community.

After Debate thereon, the question being put on the said motion; it was negatived.

Mr. Campbell moved,—That, in the opinion of this House, work on the Hudson Bay Railway which was commenced in 1910 and continued to the end of 1918 should be resumed as early this year as possible, and the project completed without any further delay.

And a Debate arising thereon;

Mr. Meighen raised the point of Order: "That Acts of Parliaments or Resolutions involving expenditure of public money should be introduced only at the initiation of the Government."

MR. SPEAKER: Bourinot says at page 410, Fourth edition—

"A practice has grown up in the house of allowing the introduction of resolutions by private members, when they do not directly involve the expenditure of public money, but simply express an abstract opinion on a matter which may necessitate a future grant."

It seems to me that the resolution now before the House is entirely covered in the phraseology of the extract I have just quoted. I also find, in May, 12th edition, at page 468, the following:—

"In like manner, motions advocating public expenditure or the imposition of a charge, if the motion be framed in sufficiently abstract and general terms, can be entertained, and agreed to by the House. Resolutions of this nature"—and I call the attention of the House particularly to the following sentence—"are permissible because, having no operative effect, no grant is made or burthen imposed by their adoption."

It seems to me that there again the authority points to the resolution as being in order. But in looking up the Journals of the House I find two cases particularly in point. In 1892, on the 14th of March, Mr. Denison, seconded by Mr. Tyrwhitt, moved:

"That, whereas the new United States canal at Sault Ste. Marie is being constructed of a depth of 18 feet, and whereas it is proposed in that Country to deepen their canals on the Great Lakes to not less than 20 feet, and whereas the proposed increase in depth has already been made at the mouth of the Detroit River, in the opinion of this House it is expedient that the Soulanges Canal and the other canals in the River St. Lawrence should be deepened to twenty feet."

Obviously that resolution was in almost direct terms an authority to expend public money. There was also in the year 1885 a resolution moved by Mr. White (Cardwell), seconded by Mr. Wright:

"That in the opinion of this House, the full sessional indemnity of such members of this House as have volunteered, or may volunteer, for service in the North West, and whose services have been or may be accepted, should be paid on their departure from Ottawa."

That resolution in its terms clearly involved the expenditure of money. Taking the general view, it does seem to me that if the House were unduly to restrict honourable members in moving motions of this character it would serve to circumscribe debate to a very marked degree, because after all very few resolutions are moved which would not in themselves, if carried into effect, involve the expenditure of public money. It seems to me that the better principle would be to widen the rule as much as possible in order that the sense of the House may be taken upon these matters, it being understood in all cases that these resolutions merely involve an expression of opinion on the part of the House, and that they do not affect the constitutional method of placing upon the Government the responsibility of initiating all legislation which has for its object the expenditure of money. Therefore, under all these circumstances, I must rule that the resolution is in order.

And the Debate continuing;

Mr. Hay moved in amendment thereto: "That all the words after the word "Railway" in the second line be struck out and the following be substituted in lieu thereof: "should be resumed as soon as financial conditions permit, and that the project be completed with the least possible delay."

And the question being put on the amendment; it was agreed to.

And the question being proposed on the main motion as amended;

And the Debate continuing;

At Six o'clock, p.m., Mr. Speaker declared the House adjourned until to-morrow, at Three o'clock, p.m.

Sir Henry Drayton, a Member of the King's Privy Council, presented,—Return to an Order of the House of March 9, 1921, for a copy of all letters, papers and other documents leading up to the passing of the Order in Council, dated the 6th day of September, 1919 (P.C. 1860), whereby authority was given (a) For the withdrawal from disposal, under the provisions of the Quartz Mining Regulations, of the available Sodium Chlorid (common salt) Rights in Township 88, Ranges 7 and 8, and Township 89, Ranges 8 and 9, West of the 4th, to admit of prospecting operations for the discovery of that mineral being conducted in the interests of the Province of Alberta.

(b) For the withdrawal from disposal of the Gypsum Mining Rights under the said property.

And also,—Return to an Order of the House of the 8th March, 1921, for a copy (a) of the report made by Mr. S. C. The following Orders of the House were issued to the proper officers, under subsection 4 of Rule 37:—

By Mr. Wright:—Order of the House for a Return showing:—

1. The number of cars, locomotives and rolling stock generally, ordered by the Government during the calendar years 1918, 1919 and 1920.

Mr. Reid (Grenville), a Member of the King's Privy Council, presented Return to the foregoing Order forthwith.

The following Orders of the House were issued to the proper officers, viz.:—

By Mr. Douglas (Strathcona), for Mr. Davidson:—Order of the House, for a copy of all letters and correspondence exchanged between professors or officials of Acadia University and the Department of Mines, since February 1, 1920, to date, relative to the employment of students of the said University by the said Department during the summer months.

By Mr. Murphy:—Order of the House, for a copy of all reports made by Arthur Young and Co., and Griffenhagen and Associates, and of all communications sent by the said firms to the Civil Service Commission relative to the Department of Public Printing and Stationery, and of all correspondence between the Civil Service Commission and the Department of Public Printing and Stationery, or any official thereof, relative to such reports and communications.

Mr. Archambault moved,—Whereas, the regulations of the Department of Agriculture provide, in connection with autumn shows of domestic animals and poultry, that agricultural societies which have spent a minimum amount of \$3,600 of their own money in their preceding show for the granting of prizes to the above classes of exhibits, will be entitled to a minimum grant of \$2,500 from the Department of Agriculture.

Whereas, in fixing a sum of \$3,600 as a minimum of expenses for the obtention of a grant the department does not encourage in any way the small local fairs held in counties which as an average distribute about \$500 in prizes for aforesaid classes of exhibits.

In the opinion of this House it is expedient to amend the present regulations by reducing the minimum to \$500, and by entitling the said fairs to the two-thirds of the amount expended in the previous year, this fraction being given as a grant providing that the amount expended was at least \$500.

After Debate thereon, the said motion was, by leave of the House, withdrawn.

Mr. Steele moved,—That, in the opinion of this House, the future fuel supply of Canada should be considered by Parliament, and that a Special Committee of the House of Commons should be forthwith appointed to inquire into all matters pertaining thereto, with power to send for persons, papers and records, to examine witnesses under oath and to report from time to time.

And a Debate arising thereon, the said Debate was, on motion of Mr. Douglas (Cape Breton South and Richmond), adjourned.

At six o'clock, p.m., Mr. Speaker declared the House adjourned until Tuesday next, the 29th instant, at Three o'clock, p.m.

## PRAYERS.

Mr. Henders, from the Select Standing Committee on Agriculture and Colonization, who have had under consideration the question of "Standardization of parts of Agricultural Machinery," presented as their First Report the appended Report of their Sub-Committee on this subject, to which they have unanimously agreed, as follows:—

The Sub-Committee of the Committee on Agriculture and Colonization of the House of Commons, appointed to deal with the standardization of parts of agricultural implements met in the Railway Committee room on Thursday, April 7th, there being present as members of this Committee—the Chairman, Mr. R. C. Henders, Mr. McCoig, Mr. Harold, Mr. Wright, Mr. Nicholson and Dr. J. H. Grisdale, as well as representatives from the various agricultural implement manufacturers, as follows:—

Mr. A. W. Wallace, International Harvester Co.;

" Geo. G. Graham, The Frost & Wood Co.;

" T. Whitcomb, Smiths Falls;

" W. S. McFarlane, Cockshutt Plow Co.;

" W. A. Watts, Massey-Harris Company;

" E. F. Bolte, International Harvester Co.;

" Wm. J. Verity, Verity Plow Company;

" Geo. Valentine, Massey-Harris Company;

" T. Bradshaw, Massey-Harris Company;

" J. G. Hossack, Massey-Harris Company;

" A. L. Upton, International Harvester Co.

Samples were submitted of ledger plates, sections and guards, as well as parts of cutting bar by the Massey-Harris and International Harvester Companies, and parts of plow points and plow point bolts by Cockshutt and Verity Plow Companies.

It was argued by the manufacturers' representatives that to standardize these different parts would be to create a new group of articles which would add to the burden of the local agents in the way of repairs to be carried, and also that it would interfere with the improvement of the different machines or implements affected.

It was ultimately conceded, on close questioning and pressure, that in the case of ledger plates as to shape and attachment, in the case of

sections as to location of rivet holes, in the case of plow points as to location of bolt holes and shape of same, in the case of plow point bolts as to shape, in the case of sprockets and sprocket chains, nuts for waggon skeins and nuts and bolts generally that a very material progress might be made towards standardization, and it was suggested that the Committee of Manufacturers' Representatives might meet with the Sub-Committee of the Committee on Agriculture and Colonization, or some representatives of the said Sub-Committee, to discuss this matter.

No such Committee was, however, named by the manufacturers at the time of the meeting above reported, but it was understood that the manufacturers should hold a meeting among themselves in the afternoon to discuss the matter privately and give us their views. Such a meeting was held and a resolution drafted and passed, reading as follows:—

Ottawa, April 7th, 1921.

That the representatives of the implement companies present at the meeting of the Agricultural Committee are of the opinion that a measure of standardization is possible on many of the articles considered and discussed with your Sub-Committee this morning. It will, however, be recognized that any change, even of a minor character, which may be made in agricultural implements, may involve important manufacturing considerations and therefore it is suggested that a Board composed of expert engineers to be named by your Committee, and representatives of the agricultural implement manufacturers, be constituted to investigate and make recommendations.

The above resolution being read was approved by the Sub-Committee and ordered to be embodied in their Report to the Standing Committee.

Sir George Foster, a Member of the King's Privy Council, laid before the House,—Correspondence relating to the Franco-Canadian Commercial Agreement, 1921.

## JOURNALS

OF THE

HOUSE OF COMMONS  
OF CANADA

---

OTTAWA, MONDAY, 18th APRIL, 1921

---

## PRAYERS.

Sir George Foster, a Member of the King's Privy Council, laid before the House,  
—Copy of Proceedings of the Canada-West Indies Conference, 1920.

Mr. Speaker laid before the House,—Report of By-Elections for the House of  
Commons of Canada, held during the year 1920.

Sir Henry Drayton, a Member of the King's Privy Council, presented,—Return  
to an Order of the House of the 6th April, 1921, for a Return showing:—

1. Whether the Young Men's Christian Association associated with the Canadian  
Expeditionary Force in the great war submitted to the Government a statement of  
accounts showing all moneys received and expended by that body both by way of  
contribution from people in Canada and arising out of sales to Canadian troops.

2. If so, whether the Government will lay same upon the table of the House.

3. If not, whether it is the intention of the Government to procure and distribute  
such a statement.

Also,—Return to an Order of the House of the 9th March, 1921, for a Return  
showing:—

1. Number of Soldiers' Hospitals in Canada at present.

2. Number of patients in each hospital.

3. What staff each hospital carries.

4. Total expenditure on these Military Hospitals.

5. Whether any of the said hospitals have been closed recently.

6. Number of soldier patients transferred from military to general or civic  
hospitals throughout the country.

7. Staff maintained at Ottawa for the inspection and general direction of these  
Military Hospitals.

8. Names and respective salaries of the members of said staff.

9. Whether any efforts have been made to save money by having soldier patients  
attended by local doctors.

Also,—Return to an Order of the House of the 4th April, 1921, for a copy of the special papers and correspondence concerning the application to the Board of Pension Commissioners of Mrs. Brunelle, widowed mother of the late Sergeant Major N. Brunelle, No. 62068, for a pension.

And also,—Return to an Order of the House of the 8th March, 1921, for a copy of all correspondence in connection with the employment and resignation of M. Abel Guibeau, engineer on board the *Canadian Traveller*, in 1919, and on the *Canadian Sower* in 1919-1920.

The following Order of the House was issued to the proper officer:—

By Mr. Douglas (Strathcona), for Mr. Shaw:—Order of the House for a copy of all correspondence, telegrams and other documents exchanged between the Department of Justice and the Department of the Attorney General in the province of Alberta, in regard to the vacancy in the District Court Judgeship occasioned by the transfer of Judge McNeil to the Judicial District of Calgary.

Mr. Lemieux moved,—That, in the opinion of this House, in order to co-ordinate and expedite the business of Parliament in a more intelligent and practical way, the estimates of the various departments should, before being laid on the table, be scrutinized by a special committee of the House, where officers would be summoned to appear with plans and reports bearing on each appropriation.

After Debate thereon, the said motion was, by leave of the House, withdrawn.

Mr. Archambault moved,—That, in the opinion of this House, in view of the considerable development of Montreal and the south shore opposite Montreal, and of the evident insufficiency of the Victoria Bridge, a new bridge should immediately be constructed connecting Montreal with the south shore.

After Debate thereon, the said motion was, by leave of the House, withdrawn.

Mr. Prevost moved,—That, in the opinion of this House, it is in the public interest to allow the public to obtain official information on the work of the Parliament of Canada and to be acquainted with the ministerial declarations, the answers made to questions and interpellations of members and the speeches made in the House, as well as in the Senate.

That the easiest way to put such information within the reach of the people is to keep a French and an English copy of Hansard in conspicuous places in all the post-offices of the country where they could be consulted at any time during office hours.

After Debate thereon, the said motion was, by leave of the House, withdrawn.

3. The Committee desire to bring to the attention of Parliament its recommendation contained in the Second Report of the Committee last Session, as follows:—

"Since Confederation it has been the practice of Parliament to pay for the printing of all departmental reports. The Joint Committee believes the time has arrived when this policy should be abandoned, and that instead each public department be required to annually prepare its printing estimates to cover all services, including the annual report; that Parliament pay only for copies of reports necessary to meet the requirements of its mailing list, and for the Sessional Papers.

"This change in practice, it is believed, will conduce to greater economy and be an incentive to the departments to watch their printing appropriations more closely. If this change be accepted by Parliament it is recommended that it be made operative for the fiscal year commencing 1st April, 1921."

The foregoing recommendation having been approved by Parliament, effect was given thereto by Order in Council of 18th August, 1920 (P.C. 1940).

This recommendation was not intended to cover the translation services of the annual reports, and as the public departments find difficulty in determining what such services would cost them, the Committee believe the simplest method is for the translation to remain under the jurisdiction of the House of Commons, as at present, and it so recommends.

4. The Committee recommend that a letter be sent annually to each Senator and Member, beforehand, informing them that unless they return the card enclosed therewith, stating that they do not wish the Debates and bound Sessional Papers sent to their home addresses, that the same will be forwarded as soon as they are ready for distribution.

5. The Committee direct the attention of the Editorial Committee to the desirability of their seeing that the regulation is enforced against the duplication of matter in the publication of reports, other than those of a purely routine character; and recommend that blank pages be omitted from printed documents.

6. The Committee desire to direct the attention of the several departments of the Government to the fact that complaints have been received of the difficulty experienced in securing a satisfactory distribution of printed departmental documents. The Committee suggest that special pains be taken to see that public bodies, more particularly the public libraries in the larger centres of population, be given a full distribution, and that the practice of making a charge be dispensed with in this connection, as far as public documents are concerned.

7. The Committee has had under consideration the annual report of the Editorial Committee, and has pleasure in commending this branch of the public service for the excellent work it is doing. It is a great satisfaction to the Committee to know that since it proposed the creation of the Editorial Committee, there has been saved to the country the sum of over \$800,000, which would have gone in useless printing. The annual departmental reports submitted to Parliament are a tangible evidence of what the Editorial Committee has been able to accomplish, without impairing the work of any of the departments. Besides the reduction in the number of printed pages from 210,007,404 in 1916 to 40,662,680 in 1920, the half-tone illustrations in annual reports in 1916 were 9,397,865, and last year there was none.

In its annual report, reference is made by the Editorial Committee to the frequency with which Rule 74 of the House of Commons is suspended, and an instance is given where, on the representations of the Committee, an order for the printing of half a million copies of a certain report was reduced by fifty per cent, after all public requirements had been met. The Committee realizes that occasionally there is an urgent demand for the printing of a document for the use of Parliament, as for instance the French Treaty, in regard to which Rule 74 was suspended on March 31st of the present Session, and to which there could be no objection. But many instances have occurred where orders for printing have been passed by Parliament without the Committee on Printing being consulted, and we would suggest that in every instance where it is contemplated to suspend Rule 74, the Chairman of the Committee on Printing should be notified in advance.

With reference to the recommendation contained in Report No. 2 of last Session, "that it be made an imperative order that all manuscripts of publications to be printed for the public departments or commission whose appropriation is voted by Parliament, must be referred to the Editorial Committee before action is taken upon them," the Committee desire to be understood that the widest possible interpretation is to be placed upon this recommendation. In one or two instances, the jurisdiction of the Editorial Committee has been challenged, and the Joint Committee therefore recommends that the rule as regards requisitions for all classes of printing, binding, etc., be made applicable to all officers appointed by Parliament equally as to the public departments.

## PRAYERS.

Mr. Guthrie, a Member of the King's Privy Council, laid before the House,—  
Report of the Air Board, for the year 1920.

The Bill No. 118, An Act to amend the Bankruptcy Act, was read the third time  
and passed.

The House resumed the adjourned Debate on the proposed motion of Sir Henry  
Drayton: That Mr. Speaker do now leave the Chair for the House to resolve itself  
again into Committee of Ways and Means.

And the question being proposed;

Mr. Fielding moved in amendment thereto: That all the words after the word  
"That," to the end of the question be omitted, and the following inserted instead  
thereof:—

"the House regrets that, after repeated assurances by the Government of an  
intention to have a revision of the Customs tariff, and after a protracted inquiry  
extending from ocean to ocean by a committee of cabinet ministers, the Government  
have made no proposals for any reduction of the tariff;

"That, while recognizing that existing financial requirements of the Dominion  
demand the maintenance of a Customs tariff, the House is unable to concur in the  
declarations by the Government that the tariff should be based on the principle of  
protection; the tariff is a tax, and the aim of legislation should be to make taxation  
as light as circumstances will permit;

"That the aim of the fiscal policy of Canada should be the encouragement of  
industries based on the natural resources of the country, the development of which  
may reasonably be expected to create healthy enterprises giving promise of enduring  
success;

"That such changes should be made in the Customs duties as may be expected  
to reduce the cost of living, and to reduce also the cost of implements of production  
required for the efficient development of the natural resources of the Dominion;

"That, while keeping this aim clearly in mind, the House recognizes that in any  
readjustment of the tariff that may take place, regard must be had to existing condi-  
tions of trade, and changes made in such a manner as will cause the least possible  
disturbance of business;

"That the House, while recognizing that the obligations arising from the War must be met, and declaring its readiness to make all necessary provision for that purpose, regrets that the financial proposals of the Government are not made with due regard to the economy that is so urgently needed, and expresses the opinion that, before resorting to new taxation, the Government should make a substantial reduction in the proposed expenditure."

And a Debate arising thereon;

WEDNESDAY, 11th May, 1921.

And the Debate continuing, the said Debate was, on motion of Mr. Ballantyne, adjourned.

A Message was received from the Senate requesting this House to give leave to the Honourable Thomas Alexander Crerar, M.P., to attend and give evidence before the Special Committee of the Senate appointed to inquire into and report at this Session upon the conditions which are responsible for a large portion of our export trade (more especially the products of the West) to be routed via American instead of via Canadian ports.

On motion of Mr. Ballantyne, it was ordered,—That eight hundred copies of the Ways and Means Resolution submitted to the House on the 9th instant be printed forthwith, six hundred in English and two hundred in French, and that Rule 74 be suspended in respect thereto.

The House then adjourned at 1.07 o'clock, a.m.

#### SPEAKER'S RULING.

MR. SPEAKER: In the course of debate during the sitting of May tenth, the honourable member for Brome read a letter which he said was purely imaginary. The letter in question was addressed to the honourable F. B. McCurdy, Minister of Public Works, and signed by C. G. Ballantyne. A point of order was raised by the honourable member for Selkirk as to whether it was competent to attach a member's name to an imaginary letter.

The situation was somewhat baffling and difficult to deal with at the moment, inasmuch as the question was without precedent so far as I have been able to ascer-

tain, and, in view of the specific statement of the honourable member for Brome that the letter was purely imaginary, I did not at the time rule the proceeding out of order. Upon careful and mature reflection, I am of opinion that if this incident is to stand, and a precedent thus established, a door would be opened for a grave abuse of the rules of the House and the general principles which govern debate.

There are several objections to this method of procedure. It is contrary to the rules to refer to an Honourable Member by name (and, in this connection, I desire to direct the attention of the House to the fact that there has been of late an increasing tendency to violate this most important rule).

Furthermore, the matter contained in a letter of this character, although said to be purely imaginary, cannot fail to convey a meaning and be capable of an interpretation which the honourable member affected cannot effectively deny, being precluded by the very nature of the letter: thus in effect an honourable member would be enabled by this indirect method to convey a meaning or impression which he would be precluded from doing by direct assertion.

There is still another very grave objection to this method, an objection which, to my mind, is sufficient in itself, viz., that the use of this method in argument will call for similar letters in reprisal, and thus the door would be opened to a method of debate which it would require no effort of the imagination to realize would affect most injuriously decorum in debate and the dignity of the House.

It is therefore in my judgment of great importance that the incident in question should not be construed as a precedent, and, in order the more effectively to carry out this intention, I have issued instructions that the letter in question be not printed in the revised edition of Hansard.

The House resumed the adjourned Debate on the proposed motion of Sir Henry Drayton: That Mr. Speaker do now leave the Chair for the House to resolve itself again into Committee of Ways and Means, and the proposed motion of Mr. Fielding in amendment thereto.

And the Debate continuing, the said Debate was, on motion of Mr. Long, adjourned.

Bill No. 40, An Act to amend the Canada Shipping Act (Public Harbours).

Also,—A Message informing this House that the Senate had passed the following Bills, to which the concurrence of this House was desired:—

Bill No. 154 (Letter D4 of the Senate), intituled: "An Act for the relief of Annie Maud Bell."

"the House regrets that, after repeated assurances by the Government of an intention to have a revision of the Customs tariff, and after protracted inquiry extending from ocean to ocean by a committee of cabinet ministers, the Government have made no proposals for any reduction of the tariff;

That, while recognizing that existing financial requirements of the Dominion demand the maintenance of a Customs tariff, the House is unable to concur in the declarations by the Government that the tariff should be based on the principle of protection; the tariff is a tax, and the aim of legislation should be to make taxation as light as circumstances will permit;

"That the aim of the fiscal policy of Canada should be the encouragement of industries based on the natural resources of the country, the development of which may reasonably be expected to create healthy enterprises giving promise of enduring success;

"That such changes should be made in the Customs duties as may be expected to reduce the cost of living, and to reduce also the cost of implements of production required for the efficient development of the natural resources of the Dominion;

"That, while keeping this aim clearly in mind, the House recognizes that in any readjustment of the tariff that may take place, regard must be had to existing conditions of trade, and changes made in such a manner as will cause the least possible disturbance of business;

"That the House, while recognizing that the obligations arising from the War must be met, and declaring its readiness to make all necessary provision for that purpose, regrets that the financial proposals of the Government are not made with due regard to the economy that is so urgently needed, and expresses the opinion that, before resorting to new taxation, the Government should make a substantial reduction in the proposed expenditure."

And the Debate continuing;

FRIDAY, 20th May, 1921.

And the question being put on the amendment; it was negatived on the following division:—

### *Review of Past Effort and Expenditure*

Before dealing with the immediate subjects referred to your Committee, it will be of interest to review briefly the effort and expenditure made by the people of Canada through the Federal authorities on behalf of those who took part in the war. A comprehensive statement on these subjects will be found in the report of the Special Parliamentary Committee on Re-establishment issued on October 31, 1919. It is not the intention to repeat what was then said, but rather to present in a condensed form the more striking features relevant thereto. The figures quoted, unless otherwise indicated, cover expenditures, including cost of administration, to the 31st of March, 1921. They are expressed in round amounts, and no doubt fall short of a full accounting:

1. War Service Gratuities, including those paid to Canadians who served in the Imperial Forces (exclusive of administration cost) approximately . . . . . \$164,000,000.00
2. Pensions for death and disablement—
  - Number of pensions in force, 70,714.
  - Including wives and children, number of persons receiving benefits from same, 150,753.
  - Total expenditure for pensions, gratuities in lieu of pension and in settlement of pensions to those with less than 15 per cent disability . . . . . \$ 91,000,000.00
3. Re-establishment—
  - (a) Medical treatment for one year after discharge for those suffering from any disability whether due to service or not and thereafter for those suffering from war disabilities or a recurrence of same.
  - (b) Vocational training for the disabled and for those who enlisted under the age of 18.
  - (c) Pay and allowances to those mentioned in above categories.
  - (d) Loans to vocational students, etc.
  - (e) Care of the blind.
  - (f) Post discharge dental treatment.
  - (g) Artificial limbs and other appliances.
  - (h) Employment services.
  - (i) Relief measures during winters of 1919-20 and 1920-21.
  - Total expenditure on above from inception of the Military Hospitals Commission . . . . . \$102,300,000.00
4. Land Settlement—
  - Number of official applications, 59,000.
  - Number of applicants qualified, 43,000.
  - Number of applicants who were granted loans, 19,800.
  - Area of land cultivated, 973,000 acres.
  - Area of land newly broken by soldier settlers, 194,000 acres.
  - Loans granted, \$80,000,000.00.
  - Total expenditure on above, after deducting repayments of principal . . . . . \$82,600,000.00

NOTE.—This sum will be further reduced by payments of principal, with the result that a large proportion of the moneys advanced by the Dominion will eventually be repaid.

5. *Soldiers' Insurance—*

Policies in force, 2,371.  
 Premiums received, \$95,000.00.  
 Liability on claims made, \$121,000.00.  
 Liability on policies in force, \$7,074,000.00.

NOTE.—The liability on policies in force will be largely reduced by premiums to be received.

6. *Transportation of dependents from Overseas—*

Expenditure (exclusive of administration cost) . . . . . \$2,800,000.00

7. *Redemption of Sterling Funds at par—*

Amount redeemed to date (cost not yet ascertained) . . . . . \$14,400,000.00

8. *Preferment in appointments to Government Service—*

Permanent appointments, 8,000.  
 Temporary appointments, 29,000.

9. *Summary of Expenditures—*

Gratuities. . . . .	\$164,000,000.00
Pensions. . . . .	91,000,000.00
Re-establishment. . . . .	102,300,000.00
Land Settlement. . . . .	82,600,000.00
Transportation. . . . .	2,800,000.00

Total. . . . . \$442,700,000.00

As already mentioned, the above is by no means a complete accounting of the expenditure on behalf of the returned man. It can be stated with confidence that there has been expended to the end of the last fiscal year, that is to March 31st, 1921, from four hundred and fifty to five hundred millions, and in those figures no allowance is made for the sum voted for the Federal Housing project or for the moneys disbursed by Provinces and Municipalities or through the various Veterans' Associations, the Patriotic Fund, Red Cross and other voluntary societies.

It is not so easy to forecast the future Federal yearly liability; much will depend upon a return to normal conditions throughout the country at large. The Pension bill, including cost of administration, will hardly be less than \$33,000,000.00; the other activities of the Department of Soldiers' Civil Re-establishment may total a like amount, while it is possible further large advances will be required to finance the Soldier Settlement Board. A conservative estimate of our annual expenditure in this behalf would not be less than \$75,000,000.00.

#### INTRODUCTORY

Turning now to the Order of Reference under which your Committee was convened, there are indicated three distinct branches of inquiry, viz.: Insurance, Pensions and Re-establishment. With the exception of the first named, Insurance—which was for the first time fully considered last Session—the subjects named have been continuously under review by Special Committees of the House of Commons, and by the House itself, during every Session of the present Parliament. The question of Pensions indeed occupied the attention of a previous Parliament, and Special Committees sat thereon during the Sessions of 1916 and 1917. It is not surprising, therefore, to find as a result of those previous inquiries, that a fund of information has been acquired and that it is the exception to have any wholly new problem sub-

mitted. Notwithstanding this condition there were brought to the attention of your Committee many questions connected with each branch of its inquiry. This is in part evidenced by the fact that, exclusive of the individual cases mentioned at the outset, there were laid before the Committee more than 250 separate specific suggestions, suggestions which dealt with almost every conceivable aspect of the national life in relation to the ex-service man.

Thanks to the efforts of the secretarial staff of the Committee, whose working hours knew no limit, each one of these received due and careful consideration. It is obvious, however, it would but burden the record to set out here all these suggestions. With the exception, therefore, of a few of the more important, concerning which your Committee felt an expression of opinion was desirable, the report deals only with those matters whereon the Committee was able to recommend positive action or towards which it wished to direct the attention of the Government. Among the latter are questions embracing so wide a field, they might well have been the sole subjects of inquiry throughout the Session by separate Special Committees.

It is well to emphasize the fact that the mere absence of an expression of an opinion does not indicate a failure to consider any one of the many suggestions received. Once more let it be repeated that each and every one of these was submitted to, discussed by, and decided on by your Committee. If then those who are interested in a special question submitted to the Committee find no reference thereto in this report, they may understand the Committee found itself unable to make any recommendation on the subject.

#### PART I.—INSURANCE

1. Under the Act passed at the last Session it has been possible since September 1st, 1920, for returned soldiers, sailors and nurses resident in Canada, without medical examination, to insure their lives with the Dominion of Canada up to a maximum of \$5,000 each. As earlier stated, by the end of March last nearly 2,400 contracts had been completed. Of these 910 were for the maximum sum of \$5,000; 659 for \$1,000 each; 351 for \$2,000; 234 for \$3,000 and the remainder for varying amounts. The total liability on these policies is somewhat in excess of seven million dollars; nearly \$95,000 have been received in premiums and by reason of the deaths of those assured, claims amounting to over \$120,000 have either been settled or are awaiting adjustment. Further statistical information on this subject will be found on pages 22 to 24 of the printed evidence.

2. It should be kept in mind that the primary object of the Returned Soldiers' Insurance Act, is to enable those whose health has been impaired by service to procure at actual cost, and without regard to their physical condition, some measure of protection for their dependents. The welfare of these dependents is accordingly safeguarded by various provisions of the Act which by their very nature limit its scope and distinguished the relief it affords from that derived under ordinary insurance contracts.

3. It will be noted from the statistics mentioned that a proportionately small number of returned members of the forces has yet taken advantage of the benefits conferred by the Act. Your Committee is of the opinion that this is partly due to misunderstanding and lack of appreciation among returned soldiers generally of the benefits that may be obtained. Evidence was submitted indicating that while a large amount of printed matter has been distributed and many avenues of publicity used there are yet many individuals to whom this insurance would be of advantage who are unaware of its benefits, due in a measure to the difficulty of explaining insurance except by personal interview. It is felt that in view of the fact that applications for this insurance will be received only for a limited period, suitable action should be taken to ensure that all persons eligible shall have had a reasonable oppor-

tunity to obtain it before the expiration of that period. Your Committee is not in favour of the appointment of agents, on a commission basis, or of any action that might tend to obtain applications under pressure, but recommends that the Board of Pension Commissioners and the Department of Soldiers' Civil Re-establishment, jointly select a sufficient number of returned soldiers to fully explain, by way of addresses and otherwise, the details of the Act throughout the Dominion.

4. The following suggestions submitted to your Committee, in certain instances by the Board of Pension Commissioners who are charged with the conduct of the enterprise, and in others by the Soldiers' Associations or individuals, have been approved.

(a) That the provision in the Act confining insurance contracts to those members of the Canadian forces who reside in this country be abrogated and that such members, no matter where resident, be entitled to insure under the Act.

(b) That upon the death of the assured the initial payment under the policy, instead of being limited to one-fifth of its face value, shall be \$1,000 or the full amount of the policy if the latter be not in excess of \$1,000.

(c) That section ten of the Act be so amended as to permit payment to the wife of the assured when such wife is not pensionable although other dependents of the assured are awarded pensions.

(d) That section ten be further amended to cover the cases of those in receipt of pensions from other than Canadian sources.

(e) That regulations under the Act be framed to provide that the approval by the proper officer of an application for insurance and receipt of the initial premium due thereunder shall, in the absence of fraud, have the same effect as delivery of the policy to the assured. Cases already dealt with affected by such regulations to be reviewed.

(f) That arrangements be made whereby pensioners insured under the Act be given the option of assigning their pensions or a portion thereof towards payment of premium.

The necessary amendments to the present Act to carry out the above suggestions have been incorporated in a Bill, a copy of which is attached.

5. The suggestions outlined are in the main self-explanatory but in connection with the second one mentioned (b) it may be said that under the law as it now stands the maximum amount of insurance payable in one sum at death is one-fifth of the face value of the policy, the balance being paid as an annuity for a period of years the shortest of which is five years. Under a \$1,000 policy, therefore, only \$200 is payable at death, while only \$100 is paid when the policy is for \$500. It is evident that the sums mentioned are insufficient to meet ordinary funeral expenses and that the annuity payable under a small policy is too small and spread over too long a period to effect the maximum benefit. All amounts in excess of \$1,000 will still be payable as an annual income and the principle of safeguarding the interests of beneficiaries, laid down by your Committee last year, is not departed from in recommending this amendment.

6. Numbers of further suggestions were received, all of which were given careful consideration, but upon which your Committee was unable to reach a favourable decision. One of the more important of these was that the period for receiving applications be extended. Under the present law this insurance is available until September 1, 1922. The Committee is of the opinion that with the facilities herein suggested for giving publicity to this measure every person will have had a reasonable opportunity of effecting insurance before that date.

## PART II.—PENSIONS

1. Following the recommendations made by the Special Committee of last Session, pensions to the disabled, to widows and to dependent parents resident in Canada were increased for a period of 12 months from 1st September, 1920, by a bonus of 50 per cent over the basic rates fixed by Parliament in 1917. Further increases not by way of bonus were at the same time granted in respect of wives and children.

As a result, since the date named, the totally disabled unmarried man whose rank is below that of a Captain, has been in receipt of \$75 a month, or \$900 per annum; if married but without children, \$100 a month or \$1,200 per annum, and if married with 3 children of pensionable age \$137 a month or \$1,644 per annum.

The widow of a deceased soldier of the above rank without children, is in receipt of \$60 per month or \$720 per annum; while her allowance has been increased for each child of pensionable age by the same amount as that allowed in respect of the children of the totally disabled pensioner.

2. The question of continuing this bonus as a temporary or permanent addition to pensions, of increasing or diminishing it, was one of the most important with which your Committee had to deal. Much evidence and many representations on the subject were received and carefully considered. Independent opinion was expressed that the present rates for the totally disabled and widows were in most localities sufficient for the purpose for which they were designed, although as in former years leaving little, if any, surplus to meet extraordinary expenses incident to illness or accident.

The Department of Labour prepared for the use of the Committee the chart attached to this report setting forth the entire cost of living for the average family of five persons. This is based on the retail prices and rentals prevailing in the cities of Canada, and covers a period from 1913 down to March of this year. The items forming the aggregate total are rent, fuel, food, clothing and sundries. The last-named item includes a modest allowance for life insurance premiums. Rent, fuel and food, make up about two-thirds of the total, and notwithstanding some fall in the price of foods, the increase in rentals and cost of fuel maintains this major portion of the budget at much beyond its pre-war level.

As will be noted, the peak of high prices was reached during the middle of 1920 when the family budget was double that of the average of 1913. Since September last there has been a sensible and accelerating decline until in March the level reached corresponds to that of the last quarter of 1919.

Other charts prepared by the same Department show the trend of wholesale prices over a longer term of years. The decline in these has been sharper and more rapid than in the retail trades and affords ground for hope that before long the consumer will secure some further measure of relief.

Taking into consideration the above and the fact that the present bonus was not in force during the period when prices were at the maximum your Committee recommends that it be continued for a further period of 12 months, that is until September, 1922. Before that date arrives it is possible that living conditions may adjust themselves to a point which will justify its modification.

3. Last year's decision confined the 50 per cent bonus to pensioners resident in Canada; for those resident elsewhere the former bonus of 20 per cent was continued. Strong representations were made against the discrimination thus shown, and stress was laid on the allegation that recruiting missions in the United States made definite promises that men enlisting in that country would receive the same benefits as Canadian residents. Many of those who thus enlisted returned after service to their homes in the republic; some sought the advantage to be derived from special climatic conditions, while others found it easier to obtain employment south of the line.

The position of pensioners living in the United States was further aggravated by the discount on Canadian funds in which currency their pensions are payable.

Your Committee recommend that from and after the first of September next, the bonus to pensioners, resident outside of Canada, be the same as that payable to those living in this country, but that the practice of paying all pensions in Canadian funds be continued.

The increased liability incurred by this recommendation is estimated at slightly more than \$650,000 per annum divided about evenly between disability pensioners and widows or dependent parents.

4. (a) The position of widowed mothers in relation to pension has received the attention of every previous Committee and has, as well, been discussed by the House during this and former sessions. The widow of a soldier receives her pension as of right, wholly without reference to her financial position. A widowed mother, on the contrary, has heretofore by our Pension Law been called upon to prove as a condition precedent to award of pension, substantial dependency—either actual or prospective—upon her deceased soldier son.

(b) It is suggested that this distinct variation in treatment arises from that provision of the law which binds every husband to support his wife, while save in the Province of Quebec, no such legal obligation towards a mother is laid upon her son. Even in that Province your Committee is advised a mother must be in need, or in the words of the Pension Act must be in a "dependent condition" before she can substantiate her claim for support.

(c) Parliament has during the past two years ameliorated the position of widowed mothers by providing that no reduction be made in the pension of a widowed mother because of her personal earnings or because she has the advantages of free lodgings, by reason of the ownership of her home or otherwise, nor if she be resident in Canada because she is in receipt of income from outside sources of not more than \$20.00 a month. In so far as that income exceeds the sum of \$20.00 a month the pension is reduced. A reduction is at present also made on account of actual contributions made by other members of the family and not less than \$10.00 a month is deducted on account of each unmarried son residing with her whom the Pension Commissioners consider should be able to contribute to her support.

(d) To the above extent it will be noted there has been a departure from the original and perhaps unreasonable rule, that even the smallest income or emolument accruing to a widowed mother must be deducted from her pension. What is now urged is that a widowed mother shall be paid a pension as of right, without reference to her dependence upon her son or to her own financial resources; or to put it in another way, that widowed mothers shall be placed upon the same basis as widows.

(e) Your Committee has given this subject very earnest consideration. To abolish the existing restrictions and award pension as of right to every mother of a deceased soldier, as and when she becomes a widow, would add many millions to the pension bill. It would moreover result in the anomaly that mothers with ample income would receive an added supply from the country's treasury, while she, who is less fortunate in worldly wealth, although her sacrifice was as great, would have nothing save her pension upon which to live. That a similar anomaly exists in the case of widows does not justify the proposal and your Committee therefore is unable to recommend same.

(f) The question of deducting from pensions the contributions of children has also been carefully considered. The Committee considers that public opinion generally supports the contention that it is the duty of unmarried sons living at home to contribute to their mother's support when able. However, to do away with the objection that a widowed mother's pension is reduced on account of the sons living with her while it is not reduced on account of income up to \$20.00 a month, your Committee is of opinion that the law might well be modified so that the widowed mother's income is considered to include any contribution from children with or away from

her; thus providing that on account of such contributions up to \$20.00 a month no reduction from pension will be made.

Estimated yearly liability on this account, \$17,600.00.

5. The Committee of last session recommended an increase up to the C.E.F. scale in pensions payable in connection with former military service. By some oversight the amendments to the Pension Act failed to cover all the cases of those who died or were disabled on military service in Canada prior to August, 1914. Your Committee recommends that this error be now rectified, the estimated yearly liability being \$13,500.

No other recommendation involving an increased liability is proposed.

#### *Other Proposed Changes in the Pension Law.*

6. It has been represented to your Committee that in the operation of the Pension Act the following minor changes in its wording are advisable, from an administrative point of view:

(a) By more clearly defining that deaths or disabilities to become pensionable hereafter must be attributable to military service as such;

(b) By limiting the time up to which pension shall be awarded to the dependents of a member of the forces whose death on service was due to misconduct.

(c) By providing that a pensioner whose disability has been reduced to within Classes 19 and 20 (fourteen to five per cent inclusive) be allowed the option of accepting a final payment in lieu of pension.

7. The proposed bonus and suggested amendments to the Pension Act mentioned above have been incorporated in a Bill, copy whereof is attached.

#### *General*

8. Your Committee received many suggestions on subjects other than those dealt with above. While, as stated earlier in the report, it would serve no useful purpose to set all of these out, yet due consideration was given to each. The following appeared of special importance:

*Suggestion (a).—*"That the Department of Soldiers' Civil Re-establishment continue pay and allowances until pension becomes operative."

A considerable amount of evidence was given to your Committee on this suggestion when it was shown that cases of delay in awarding pension occurred even under the best ordered procedure. To prevent hardship in any case in future, your Committee is of opinion that arrangements be made in cases of discharge from sanatoria of former members of the forces suffering from tuberculosis, whereby the Department of Soldiers' Civil Re-establishment shall pay the equivalent of a ninety per cent pension until such time as pension is awarded. Your Committee is of opinion that the regulations now in force will enable the Department to put this into effect without further amendment to the Pension Act.

*Suggestion (b).—*"Pension to be awarded for old age disability."

This question was pressed more strongly than in previous years. It was pointed out by the Commissioners that where senility has been hastened by service, pension is awarded. Your Committee is of opinion that the time will shortly arrive when circumstances will point to the necessity of very serious consideration being given to the soldier without pensionable disability who is unable, through age or infirmity, to care for himself.

*Suggestion (c).—*"That full disability pension be awarded to blind veterans whether this disability was due to service or not."

The policy of the Pension Board in this matter is as follows:

(i) A man blind in one eye previous to enlistment, who saw service overseas, which caused blindness in the second eye, will receive a full disability pension;

(ii) A man blind in one eye as the result of service, who subsequently loses the sight in the other eye through some sympathetic trouble from the first eye, will receive a full disability pension;

(iii) A man with eyesight in both eyes previous to enlistment, who had overseas service, through which he lost the sight of one eye, and subsequently loses the sight in the other, from causes in no way related to service or to the injury to the first eye, will receive a seventy per cent pension;

(iv) A man with impaired vision in one eye prior to enlistment, whose service overseas causes blindness in the other eye, and who subsequently, from causes in no way related to his service, loses the sight of the defective eye, will receive pension at not less than seventy per cent. In some cases such as this and approximating more closely to example (i) above, he may receive pension at a higher rate. Such cases as these can, however, be decided only on their merits.

(v) All of the above examples will, when totally blind, receive an additional allowance for helplessness.

An amendment to the Act in this respect is unnecessary.

*Suggestion (d).*—"That pension be awarded to a widow married after the appearance of the disability if the marriage takes place six months before death."

This suggestion received the very earnest consideration of your Committee and the administration of the law in this respect by the Pension Board was thoroughly inquired into. As the law now stands, a woman who marries a soldier after the appearance of the injury or disease which resulted in his death, is not entitled to pension but the children may be awarded pension at orphan rates. This suggestion has been before former Committees which did not recommend any material alteration. Under the Returned Soldiers' Insurance Act a disabled man can protect his wife by taking out insurance on his own life. Your Committee was unable to reach a decision in favour of the suggestion.

*Suggestion (e).*—"That the time limit of five years within which the widow and children of a pensioner in classes one to five be awarded pension, whether death be due to service or not, be deleted."

It may be pointed out that pensioning the dependents of pensioners in classes one to five who died from any cause whatever, was done with the idea of continuing the principle of insurance, as on service, in favour of the high disability cases. Life insurance can now be obtained under the Returned Soldiers' Insurance Act, and your Committee is therefore not in favour of adopting the suggestion.

*Suggestion (f).*—"That no reduction be made for any disability shown to have existed prior to enlistment."

No reduction is made under the existing law in the case of a man who reached a theatre of actual war, unless such disability was wilfully concealed, was obvious, or was not of a nature to cause rejection from service.

At present also these men suffering from tuberculosis on enlistment, who served three months in Canada without a breakdown, are pensionable in full with a maximum deduction of ten per cent only on account of disability existing prior to enlistment. Thus they receive a ninety per cent pension. Those men suffering from tuberculosis with less than three months' service, are pensioned for any aggravation of this disability on service. Your Committee is of opinion that no further amendment is necessary in connection with this.

*Suggestion (g).*—"That dependents be pensioned when soldier dies from loss of vitality due to war service."

Evidence was not lacking that, perhaps to an increasing extent as the war recedes, the abnormal strain, occasioned by service in the trenches renders an ex-soldier more liable to disease and tends to hasten his demise. It is clear that each case must be examined in the light of the deceased's life record and in the final analysis the Commissioners must be guided largely by medical opinion. Your Committee suggests that a sympathetic and generous view be taken of claims made under such circumstances.

*Suggestion (h).*—"That pension be paid to wives of families of these men, 1st, who prior to enlistment had abandoned their families and were killed on service. 2nd, who during the war were declared deserters and have since failed to reappear or, 3rd, who after being pensioned have left their homes."

The objections to awarding pensions in these cases are so well founded your Committee is unable to make any recommendation. As to certain of those falling under the 2nd, and much more numerous class, it appears possible that arrangements can be made to protect the Dominion against loss by means of a sufficient bond of indemnity. It is suggested that the negotiations towards that end initiated by the Committee should be continued.

*Suggestion (j).*—"That commutation of pensions above 14 per cent be made optional, and that all commutations be calculated on an actuarial basis."

Following the recommendations of last year's Committee those in receipt of pensions of less than 15 per cent were given the option of accepting a fixed amount in cash in settlement of future pension payments. To term such an arrangement a commutation of pensions is misleading. The maximum amounts available were set out in the Act and were obviously of less advantage to the younger pensioners and to those with wives and pensionable families. Your Committee has reason to doubt the wisdom of the step taken last year and is opposed to a further extension of this plan.

### PART III.—RE-ESTABLISHMENT

1. This branch of your Committee's inquiry comprised, as was to be expected, the more numerous, and weightier problems, in relation to ex-service men, which confront the country. Of the resolutions, suggestions and communications submitted by soldier organizations and others, considerably more than one-half had reference to the above subject. It is a matter of some difficulty in dealing with these questions to present them in an adequate manner in a report such as this. Many of them are so interrelated that it is impossible to deal with them separately and recourse must needs be had to a broader method of treatment than may appeal to those interested in some particular aspect or phase of the situation.

2. In view of the above, it is proposed, in opening the question, to consider, as a whole, the position of the ex-service man in so far as he may be interested in the general subject of re-establishment involving as that does the questions of unemployment and the after-care of the disabled, whether needed for the tuberculous, the amputation or the problem cases.

3. Since last session the world at large has reached an acute stage in the distress which inevitably follows all great wars. The inflation of currency, notorious in both allied and enemy countries, and the inability of most of the European nations to meet their expenditure out of current revenue have produced suffering and hardship everywhere. Although in Canada the situation is incomparably better than abroad, yet a process of deflation can never make for comfort and the less so when there is added to the direct financial obligations of the war the heavy railway deficits assumed by the Dominion.

*Gratuities and Loans*

4. Representations were made to your Committee in favour of a further general cash gratuity and advocating financial assistance in the shape of loans or grants in aid of many varied forms of re-establishment. In the main, these suggestions followed the lines adopted in previous years although additional and sometimes novel reasons were adduced. Your Committee for the reasons given in the report of the Special Committee of last year—reasons which have lost nothing of their strength by subsequent developments—is unable to report favourably on either head.

*Housing*

5. The adoption of a Dominion plan for the erection of houses was strongly pressed upon the Committee both by personal representations and by means of numerous telegraphic appeals. It was suggested that this might be accomplished in one of two ways: first, by enlarging the original Federal Housing Project whereunder the Government appropriated the sum of \$25,000,000 to be loaned the provinces; or second, by setting aside a special sum as a housing loan to ex-service men.

6. There will be found at pages 538 to 559 of the printed evidence a series of comprehensive reports on this and kindred subjects, presented by Mr. Thomas Adams. From these it appears that the second plan proposed might involve an expenditure of \$50,000,000 to be disbursed through the Soldier Settlement Board in loans not exceeding \$5,000. As a check on reckless borrowing it was suggested that each applicant must be prepared to meet one-fifth of the cost of his lot and building out of his own resources.

7. The original Federal project has been taken full advantage of by four of the provinces; two have as yet a certain amount of unexpended credit, while three have failed to avail themselves of its terms. In the Province of British Columbia the plan was utilized for the benefit of ex-service men, while in some of the other provinces the percentage of loans to soldiers ran as high as 80 per cent of the total amount advanced.

8. A strong belief was expressed that a measure of this kind would go far to check unemployment and might, as well, render unnecessary further forms of relief which no matter under what name are productive of deplorable results. After many and lengthy discussions, your Committee agrees that the Government would be well advised to consider favourably an extension of its original project for the purpose of erecting houses for ex-service men.

*Employment of Disabled*

9. A widespread condition of unemployment bears hardly enough on the sound man, but its trying effects are intensified in the case of those who, through wounds or disease are not in a condition to compete in the labour market. The situation in this respect is recognized in many countries where different attempts have been made to find a remedy. In Great Britain the plan was tried of a voluntary appeal to employers and by the establishment of an honour roll. In Germany a stringent law has been enacted which compels every employer to find work for a certain percentage of disabled men. In Canada the disabled man in many cases has been found employment, but too often, particularly where there is a large surplus of available labour, he is passed by.

10. In the report of last year attention was called to the increased cost and risk placed upon an industry by reason of employment of disabled men and the suggestion was made that the Department of Soldiers' Civil Re-establishment should endeavour to formulate a plan whereby the opportunities of employment for disabled men should not be lessened.

11. Pursuant to that suggestion the Department has conducted an investigation into the subject, the result of which has been placed in the hands of your Committee.

The situation in this country is rendered more difficult by the varying laws of the different provinces which deal with the compensation due to injured workmen. Your Committee recommends that for a period of three years from September 1st, 1921, the following suggestion submitted by the Department should be adopted:

That the Government of Canada should assume the liability imposed upon employers of disabled former members of the Forces to whom a pension of 20 per cent or over is payable by the Government of Canada, in respect of disabilities received in or attributable to the Great War when such former members of the Forces meet with industrial accidents, subject to the following regulations:

(a) That on an accident occurring to any such pensioner in Canada and compensation or damages being assessed by any Workmen's Compensation Board of any province in Canada, or by any court or other authority against the employer of such pensioner in respect of such accident, the Minister of Finance shall pay out of any unappropriated moneys in the Consolidated Revenue Fund of Canada, the total amount of compensation or damages awarded.

(b) That the administration of these regulations shall be in the hands of the Department of Soldiers' Civil Re-Establishment by whom all awards under this authority shall be approved before any payment is made.

(c) That the Minister of Soldiers' Civil Re-Establishment be authorized to issue regulations covering procedure and any other matters not contrary to the foregoing general authority.

Provided that any employee in the service of His Majesty who is injured and the dependents of any such employee who is killed, and who are, on account of such injury or death entitled to compensation under the provisions of Chapter 15 of the Statutes of Canada, 1918, shall not, either for themselves or their employers be entitled to the benefits granted under the above provision.

12. The Government of Canada being one of the largest employers in the country should set an example in this respect and your Committee therefore recommends that the Civil Service Commission prepare and maintain a special list of those desiring employment in the public service who have been disabled in the war and that in all examinations for entrance to the service the disabled who possess the necessary qualifications be placed ahead of all other candidates.

A further amendment to the Civil Service Act which meets with the approval of your Committee is rendered necessary by the ruling that the Act as it stands does not permit the preference in appointments to the public service to be extended to those members of the Canadian Navy who served on the High Seas but not in European waters.

Amendments to the Civil Service Act requisite to carry out the above are attached to this report.

13. Your Committee further recommends that in the event of reductions in the staffs of the Canadian National Railways or the Canadian Government Merchant Marine ex-service men as far as possible be not discharged.

14. It was suggested to your Committee that expenditure on public works and the purchase of supplies on behalf of the Government should be regulated in such a manner as to counterbalance in some degree periodic business depression and consequent unemployment of returned soldiers.

It would be difficult to justify in times like the present, any expenditure of public funds except where there is absolute necessity coupled with a return in the form of increased efficiency and production. The suggestion, however, does not demand additional expenditures, but merely the regulation of such as must be made.

Your Committee believe that so far as may be possible the various governmental departments should work together towards this end.

15. It was suggested also that immigration should be so regulated as to prevent an aggravation of unemployment conditions.

The Federal authorities have for some months past been making special efforts in this direction. Your Committee feels too great care cannot be exercised in the selection of immigrants from certain European States, but as this question does not directly pertain to the subjects before the Committee it makes no recommendation thereon.

16. A resolution presented by the G.W.V.A. asked that steps be taken to enforce the establishment of Provincial and Local Advisory Councils in conjunction with the employment service of Canada. It will be readily understood that a move of this kind can only be made with the co-operation and consent of the Provincial authorities. Your Committee is advised that negotiations are in progress with all the provinces; that some of these have already appointed both Provincial and Local Councils while others have as yet authorized but one of these bodies. The Trades and Labour Congress, Manufacturers Association and G.W.V.A. are working in concert with the Federal Department of Labour to bring about the desired result.

#### *Problem and Handicap Cases*

17. The Committee's report of last session contained the following paragraph under this head:

"With regard to Problem Cases in general, the time during which the experiments referred to in the report of the Sub-Committee have been in operation is not sufficiently long to warrant any definite recommendation. Your Committee considers that it would be in the interest of the work that the matter be left where it is for another year, when it may be possible to submit a concrete proposal embodying plans of a permanent character."

During the intervening period the Department of Soldiers' Civil Re-Establishment has conducted the experimental handling of these cases under provisions of Order in Council P.C. 2328, the methods adopted being as follows:—

In the Province of Ontario, workshops providing occupation under special conditions set up to meet the needs of the individuals were established in Toronto, London, Hamilton, Brantford and Kingston.

In British Columbia, the department operated farms as instructional centres, and farm colonies for the care of problem cases. These colonies as respecting problem cases, were not in the opinion of the department a success.

In the Province of Quebec, a Memorial Workshop was established by the co-operation of various societies, and this workshop has taken care of problem cases without any assistance from the department, other than providing a building for this purpose.

In the other provinces they have been taken care of and given light employment under the immediate supervision of the District Officers.

18. The value of the work done in this connection by the department is evidenced by the large number of men who were felt to be unemployable, having been placed in employment. It is possible that some of these will again come on the strength but an effort is made as soon as a man is capable of taking employment outside, to provide same for him.

It should also be borne in mind that for a considerable number of years, men who are now in employment will be unable through their disabilities to continue in competition with fit men, in the ordinary labour market, and may need a period of sheltered employment before being able to go back to outside work.

It is felt, however, that in view of the nature of the provision required, some agency other than governmental should conduct workshops similar to those being operated at present time by the Department of Soldiers' Civil Re-establishment. Further, the matter of the cost of operating these workshops will have to be gone into very carefully with the organization to take up this work.

19. The department has already examined into the possibility of agencies outside the Government conducting the necessary special workshops or other provisions that may be approved from time to time in accordance with the needs of various centres, and the Canadian Red Cross, who have distinguished themselves in the carrying on of war work, and who it is believed are still anxious to have their organization continue in peace work, were thought of and approached. To date the proposals, which were general in character, have not been replied to by the National Executive, but the department has been led to believe that the proposals were well received, and that action in the way of further and more detailed negotiations may be expected at an early date.

Apart from the National organization, however, certain branches have already interested themselves and indeed started to engage actively in the establishing of definite centres of occupation. The work of the Quebec branch in Montreal has been outlined above. The Red Cross of British Columbia have signified their intention of embarking on a similar project within a short time, if indeed, they have not already commenced operations.

20. Your Committee has given careful consideration to resolutions forwarded in connection with this subject, and is of the opinion that the need for sheltered employment has been established. Your Committee, therefore, goes on record as being in agreement in principle with the requests submitted by the G.W.V.A., the G.A.U.V., and the Victoria Branch of the Canadian Red Cross.

From all evidence submitted, it would appear that experiments conducted in other countries, as well as in Canada, are not such as to lead to the belief that Farm Colonies under supervision would have any prospect of success. Your Committee, therefore, was unable to agree that the Government should embark on a definite scheme of Farm homes. Your Committee believes that in the "Vetcraft Shops" now being operated by the Department of Soldiers' Civil Re-establishment lies the most feasible scheme for the provision of sheltered employment in the larger centres of population.

21. The recommendations of your Committee, therefore, are as follows:—

1. (a) That the Department of Soldiers' Civil Re-establishment continue negotiations with the Red Cross or other organization, to provide for the establishment under the administrative control of the association or organization, such undertaking as may, in the opinion of the department, be considered to be advisable.

(b) That until an organization of a definite nature is established, the department continue to care for these cases as at present.

2. As respects financial assistance by the Government additional to pension payments to individuals, it is felt that any decision can only be made after further negotiations with the Red Cross or other organization undertaking the work. It is, therefore, recommended that such negotiations continue, and so soon as a definite basis of assistance is reached the proposal be placed before the Government for final approval.

#### *After-Care of Tuberculous.*

22. Several representations respecting the after-care of tuberculous ex-soldiers were placed before your Committee. A resolution from the Great War Veterans' Association "that a definite scheme for the after-care of the tuberculous be placed in immediate operation," generally covers the subject of all, excepting those having to do with personal representations.

The report of last year stated that a Board of five specialists in tuberculosis were investigating this problem and suggested that a definite scheme for after-care, including the co-operation of voluntary organization, might later be forthcoming.

23.—That board after inspecting the twenty-six sanatoria, and other institutions in Canada, where tuberculous ex-service men are being cared for, and after having made other investigations pertinent to their study of the subject, prepared several reports which were submitted to the Department of Soldiers' Civil Re-establishment. The last of these published in December was placed in the hands of your Committee. It is a most comprehensive document, which deals exhaustively with the care and employment of the tuberculous ex-service man, after his discharge from sanatorium. This report will doubtless take high rank in the medical world. It has served as a basis upon which consideration was given to the subject in hand.

It is recognized by your Committee that sanatorium treatment alone and unaided cannot produce the best and most permanent results and that consequently a system of after-care is essential if the results that sanatorium treatment does achieve are to be consolidated.

24. Numerous individual suggestions from various sources were placed before your Committee with regard to what should be provided for the after-care of the tuberculous. Certain of these had reference to the provision of an increased pension scale, and a supplementary allowance for the benefit of the tuberculous. Your Committee feels that neither of these can be endorsed, in view of the recommendation of other suggestions which make them unnecessary.

It is felt that an adequate minimum pension either for a period of years or permanently is desirable in the case of the tuberculous. This recommendation is limited in its application to ex-service men with a definite diagnosis of tuberculosis based on approved standards.

25. It has been demonstrated to the satisfaction of your Committee that the majority of tuberculous ex-service men will require skilled medical advice and supervision for as long as they live. This supervision should be available for tuberculous pensioners as well as out-patients of the Department of Soldiers' Civil Re-establishment which will necessitate an extension of the present facilities in the way of clinics and personnel designed for this purpose.

26. One of the great difficulties in dealing with the scourge of tuberculosis has been the scarcity of medical experts and the absence of facilities for properly training those members of the profession who desire to qualify in this respect. The same condition exists with regard to the nursing staff. Complaint on the above heads has been voiced to previous Committees and was again brought to the attention of your Committee.

27. There was established some years ago on the Muskoka lakes, a comparatively small institution known as Calydor Sanatorium. It has been since its inception and is now under the charge of Dr. C. D. Parfitt, who is recognized as a leading expert and authority on tuberculosis. Owing to limited accommodation, two-thirds of the applicants for treatment in that institution during the past three years have been refused admission. The Department of Soldiers' Civil Re-establishment has been able to place a strictly limited number of patients at Calydor and it is desirable that there should be made available to a greater number the unequalled facilities afforded by the personnel and equipment of this institution for differential diagnosis and instruction. Your Committee recommends that the Department be authorized to make arrangements with the directors of this sanatorium whereby it can be more extensively used for the purposes set out above. Such an arrangement will probably entail an extension of the present building sufficient to accommodate some 40 extra patients.

Provided this additional space is placed at the disposal of the Department for a satisfactory term of years your Committee agrees that one-half of the cost of the extension should be paid out of public funds.

28. It has been impressed upon your Committee that on therapeutic, economic and moral grounds, every ex-sanatorium patient, who is even partially fit, should be

suitably employed. Opportunities for suitable employment available to the average type of ex-sanatorium patient are extremely rare in the ordinary labour and industrial markets. Philanthropists occasionally employ a few but for the majority opportunities for sheltered employment are only available if artificially created. Accordingly there is a real justification for the inclusion of sheltered employment in any well-balanced system of post-sanatorium care of the tuberculous.

29. It has been urged and your Committee agrees that the provision of sheltered employment for the tuberculous should be in the hands of some approved non-Governmental agency. The State should, however, recognize its responsibility to the ex-service tuberculous patient by initiating sheltered employment and by offering the financial assistance required for the establishment of industries and for the medical supervision of the patients. Your Committee recommends that the Department be authorized to conduct a survey of the tuberculous ex-service men residing in all the large Canadian cities, and to take the necessary steps to establish a sub-standard shop to train and employ tuberculous ex-service men in any city, where the result of the survey appears to warrant it, and where an approved non-Governmental agency is available for its administration.

30. It would appear that a purely agricultural colony for the tuberculous has such narrow limits of usefulness in this country as not to warrant its establishment. Your Committee agrees, however, that an industrial colony on an experimental basis warrants trial in Canada in a carefully selected location. The proposal submitted from patients at the Mountain Sanatorium, Hamilton, in this connection is worthy of most careful investigation and consideration, with a view to the provision of the necessary financial assistance, to establish industries and provide competent medical supervision under the Department of Soldiers' Civil Re-establishment. As a permanent community or village settlement for the tuberculous is the logical complement to the training colony it may ultimately develop from it.

31. A sub-Committee composed of Messrs. Brien, Chisholm, and Green was appointed to consider the question of building model towns for disabled ex-service men.

After conferring with Mr. Mowat, M.P., whose resolution on the subject was referred by the House to your Committee, and with Mr. Adams, to whose evidence reference has already been made, and bearing in mind the recommendations set forth in the foregoing paragraphs, the sub-Committee has made the following recommendation in which your Committee concurs:—

That the Department of the Interior be asked in collaboration with Mr. Adams to make a report on the physical characteristics of a tract of some 7,000 acres across the North Thompson River at Kamloops, B.C., and on the probable cost of planning and constructing a model town thereon.

#### *Soldier Settlement Act*

32. The Soldier Settlement Board was created in 1917 with powers to make loans for soldier settlement upon certain terms and conditions therein laid down. The Board has been built up to a very complete and efficient organization. Nearly 20,000 returned soldiers have been settled, and loans have been granted amounting to \$80,000,000. It is estimated that two million acres of free Dominion land have been disposed of to returned soldiers under this scheme, and 8,800 of these men have been successful in locating suitable homes on lands close to railway lines. The Board appears to have produced gratifying results, both by reason of the help it afforded to returned soldiers to re-establish themselves on the land and in the larger aspect also of a colonization scheme.

There were numbers of suggestions brought before the Committee in connection with the work of this Board, only four of which require any reference. It was found when considering other suggestions put forward, that under the Act and the regulations, these were in the main satisfactorily covered.

*Suggestion (a).*—"That the deposit of 10 per cent necessary as a preliminary to settling on the land under the Soldier Settlement Act be no longer required."

*Recommendation.*—That there be no change.

It was shown in the evidence that where the 10 per cent was waived, the amount of salvage cases increased enormously. The figures are interesting. The total salvage throughout the whole scheme shows approximately 6 per cent but in the salvage cases where the 10 per cent was waived, it is over 24 per cent; e.g., 17 cases in Toronto office, all of which were salvaged, or 100 per cent; 103 cases in Vancouver office, of which 61 were salvaged, or 59 per cent; and in the Sherbrooke, Quebec office, the salvaging of these cases was 66 per cent.

*Suggestion (b).*—"That the date of payment under the Soldier Settlement Act be changed from October 1st to December 31st."

*Recommendation.*—That the Board be given discretion to extend the thirty day period of grace which they now allow to sixty days, and that during this period of grace no interest be payable, it being taken that the payment is made as on the first day of October. If not paid within the period of grace, the interest must be paid.

*Suggestion (c).*—"That the settler, upon completion of his homestead duties be granted letters patent in the usual way, and that any money owing by him on the land to the Soldier Settlement Board be placed as a first mortgage against the title."

*Recommendation.*—That the patent be issued to the Soldier Settlement Board. If this is done, the Board can then carry on negotiations with any settler who may desire to sell out his holding.

*Suggestion (d).*—"That settlers who are unable to make payment in the fall of any year, have their arrears amortized for the following years, instead of being charged up with arrears at 7 per cent due in the following year along with that year's payment."

*Recommendation.*—That the Soldier Settlement Board be empowered to re-amortize arrears when in the opinion of the Board such action is deemed to be in the best interest of the soldier and of the success of the loan, notwithstanding that the full amount of the loan has already been advanced. No amendment to the Soldier Settlement Act is necessary to carry out this recommendation.

#### *General*

*Suggestion.*—"That members of the Canadian Overseas Railway Construction Corps, whose pay and allowances were deducted by reason of misconduct, should be refunded that portion of it which was in excess of punishments laid down by K.R. & O."

*Recommendation.*—That the cases of soldiers in the above corps, whose working pay was forfeited by reason of misconduct should be reconsidered by the Department of Militia and Defence, with a view to the continuance of working pay to the date of the soldier's discharge, less such period, or periods that the soldier may have forfeited his ordinary pay and allowances.

*Suggestion.*—"That certain employees of the G.T.P. who enlisted prior to the 1st of May, 1915, be granted the difference between their army pay and the pay they would have received as employees of the Dominion Government in the service of the G.T.P."

The history of this matter dates back to the beginning of the war, and before the railway was taken over by the Dominion Government. Some nineteen men immediately obtained leave of absence and joined the overseas forces. On the 1st of May, 1915, the railway was taken over by the Dominion Government, and on the 18th of April, 1916, an Order in Council (P.C. 903) was passed which gave the employees the difference

between their military and civil pay as from the 1st of November, 1915. This was subsequently amended to the 1st of May, 1915, the date the Government took over the railway. These nineteen men are not claiming for anything prior to the 1st of May, 1915, as they received a bonus of from three to six months' pay. They do claim, however, consideration in common with all other employees of the Government railway as provided for those who did not enlist until the Government had taken over the railway. The amount required to meet these nineteen claims will be between forty and sixty thousand dollars.

*Recommendation.*—That this matter be referred to the Department of Railways to investigate, the opinion of the Committee being that a very strong case is made out on their behalf.

*Suggestion.*—"That the gratuities of Canadian soldiers who remained in England and had their gratuities paid there should be adjusted on the basis of Canadian currency."

*Recommendation.*—That the Government carefully investigate this question from both legal and equitable standpoints.

*Suggestion.*—"That members of the "Polish Battalion" (Canadian born citizens) be granted the difference between Canadian rates of pay and allowances and the rates of pay and allowances which they received on service overseas in the armies of allied countries."

The men mentioned above, of their own free will enlisted during the period of the Military Service Act, in this "Polish Battalion" rather than in a Canadian Battalion, thereby forfeiting their claim to be placed on an equal footing.

#### *Canteen Funds*

*Suggestion.*—"That a Board of Commissioners be appointed to investigate the past and present conditions of these funds, and that the funds be disposed of for the benefit of returned soldiers and their dependents."

*Recommendation.*—That this matter be referred to the Government together with the recommendations of the G.W.V.A., Army and Navy Veterans Association, and G.A.U.V., and that the Government obtain through these organizations an opinion as to the best method of the disposal of these funds.

In this matter various suggestions were received from returned soldier organizations, which the Committee considered, but on the merits of which it felt it should not decide.

*Suggestion.*—"That trustees of Battalion or Unit Funds be empowered to pay over to the main fund any balances in their possession, and receive their discharge."

*Recommendation.*—That the Government make arrangements empowering the trustee of any such fund to pay same into the Canteen Fund.

*Suggestion.*—"That if an alien subject or citizen of any of the allies of His Majesty or associated powers in the Great War having been a bona fide resident of Canada, previous to the War, enlisted and served in the Army of the country of his origin, the time of such service shall in the event of his application for naturalization be deemed to be residence in Canada."

*Recommendation.*—That the Secretary of State investigate this question with a view to framing an amendment to the Naturalization Act which will carry out the intent of this suggestion.

*Suggestion.*—"That the time for filing applications for War service gratuities be further extended."

Under the original Order in Council, dealing with these gratuities, the applicant was called upon to file his claim by July 1st, 1920. To meet the cases of those pre-

vented through wounds and illness from complying with this condition, the time for filing was at the last Session extended to 31st March, 1921.

*Recommendation.*—To cover a few cases which are still outstanding your Committee suggests that the time for filing be further extended to 31st March, 1922, upon the same conditions as are set forth in the report of the Committee of last year.

Your Committee begs to submit herewith, for the information of the House, a copy of its proceedings and the evidence taken by it and also certain papers and records submitted to the Committee, but not contained in its proceedings.

Your Committee further recommends that the orders of reference, reports, proceedings and the evidence taken by the Special Committee on Pensions, Insurance and Re-Establishment, together with a suitable index, to be prepared by the Clerk of the Committee, be printed as an appendix to the Journals, of the present Session, and that 200 copies in English, and 50 copies in French be printed and sent to the Clerk of the Committee, for distribution as instructed; also, that 1,200 copies in English, and 300 copies in French, of the Third and Final Report, of the said Committee, be printed forthwith, for distribution, in a similar manner, by the Clerk of the Committee, and that Rule 74 be suspended in reference thereto.

(*For Minutes of Proceedings and the Evidence accompanying this Report, see Appendix to the Journals, No. 2.*)

#### *Evidence, Etc.*

Your Committee submits herewith as Appendix to their Report:

- (a) The evidence adduced; and Minutes of Proceedings;
- (b) Certain statements handed in at the request of the Committee by the Civil Service Commission and by deputy heads of Departments.

*Duties and Powers of Commission*

The Civil Service Commission is constituted by and receives its powers from the Civil Service Act of 1918 and amendments thereto. Under these statutes Parliament placed the Civil Service throughout the whole of Canada, including all classes of employees from the highest to the lowest under the jurisdiction of the Commission as regards classification, appointment, promotions, salaries, transfers, etc., with the exception of the employees of Government railways and persons employed on Government boats.

It is to be noted that in taking this action in the direction of Civil Service reform Parliament has gone very much farther than the Governments of Great Britain or the United States. In brief Canada now has on its statute books a more radical and advanced measure of Civil Service reform than any other country in the world.

In the United States the policy adopted was to make a beginning in the elimination of political patronage by bringing certain classes of employees under the jurisdiction of a Civil Service Commission. As the Commission gained in experience and as its organization has broadened and improved other classes have from time to time been added, but a very large number of various classes of employees have not as yet been brought under its jurisdiction. The same is true, but not to the same extent, in Great Britain, where special provision is made for the exemption of professional and other employees with special qualifications as well as other classes.

Here in Canada under the existing law the Commission is required to classify and describe the duties of every individual employed by the Government in any capacity from an office boy to an astronomer. This has been a gigantic task. Some sixteen hundred classes or positions have already been evolved and their salary schedules fixed.

The fixing of these classes with the accompanying salary schedules involved the right of appeal upon the part of employees who were dissatisfied. Thousands of appeals poured in and some hundreds of them still remain to be heard.

Again under the law the Commission is required to examine and qualify all persons applying for positions in the public service or seeking employment of any character in any branch of the service throughout the whole of Canada.

The Commission is further charged with the duty of making appointments to all positions in every branch of the service upon examination or by some other competitive method. Similarly it is required to deal with all promotions.

It is also compelled by statute to determine all questions of increases in salaries, of leaves of absence, and the matter of transfers from one department to another as well as all transfers which involve a change of residence.

This brief summary of the chief duties and responsibilities of the Commission which Parliament suddenly cast upon its shoulders will give some slight indication of the volume of work as well as the many problems and difficulties that confronted the Commission when the Civil Service Act of 1918 became operative.

The evidence shows that the staff of the Civil Service Commission has been increased from time to time. That its expenditures with respect to salary and other expenses has steadily grown. Particulars of these expenditures are set forth in Appendix "A" and "B" hereto. In addition it may be pointed out that the operations of the Commission have resulted in an increase of staff in the various Departments of the service involving serious additional expenditures.

*Political Patronage vs. Efficient Public Business*

Throughout the inquiry conducted by your Committee, two dominant ideas were continuously manifest. These briefly stated were:

1st. That the adoption of the principle of elimination of political patronage throughout the Civil Service was sound and should be retained.

2nd. That when the application of this principle seriously affects the prompt and efficient administration of public business, the interest of the State and not the interest of the Civil Service is paramount and that this factor should be taken into consideration in any proposals to amend the existing law.

*Theories and Practice Respecting Appointments and Promotions.*

Two opposite theories of appointment and promotion were advocated throughout the inquiry. The Commission appear to take the view that they are required by law to observe closely the principle that every sort of employment in the gift of the Government of Canada, from the highest to the lowest, must be thrown open and made available to all the people of Canada, upon the basis of competitive examination.

The Commission appeared to support this principle and urged on behalf of the same that it was the democratic idea. On the other hand, your Committee found that all Civil Servants examined were firmly of the opinion that promotion ought to run throughout the department, that the junior employees should be promoted to higher positions, and that a man or woman should enter the service while young and should work his or her way from the bottom to the top, adopting the Service as a life work and a career.

In examining the practical application of these two principles which, it will be observed, are more or less opposed to one another, we found that when a vacancy occurred of a minor or major character, a very common practice is for the deputy head of the department to put forward the names, qualifications or ratings of one or more persons for promotion to fill the vacancy in question. The Civil Service Commission then advertises the position and thereby conforms to the democratic principle above laid down. The evidence disclosed the fact that although persons outside the Service frequently applied, yet in such cases where the vacancy existed in a large classified service, persons suggested by the heads of the branches or the Deputy Ministers almost invariably received the appointment.

Your Committee have no fault to find with the general results of this policy but we are obliged to point out that there is a good deal of deception in the method above outlined and further that it lends itself to unnecessary expense in advertising, to delays in making appointments and promotions and to a certain degree of hardship in so far as outside applicants are concerned. As from the evidence it would appear that in filling many positions the Commission is largely guided by the recommendations or representations of the deputy heads of departments and their responsible officials, your Committee submits that it would be in the public interest as well as in the interests of the Civil Service itself if the Commission by regulation or otherwise, adopted a more direct method of dealing with certain classes of these appointments and promotions.

*Old vs. New Conditions*

During the course of the inquiry your Committee was repeatedly called upon to consider whether or not the Civil Service under the Commission was more efficient than it was under conditions which prevailed prior to its establishment. All of the witnesses examined by your Committee gave evidence on this point. It may safely be observed that the weight of evidence clearly indicated that the Civil Service was not less efficient under the Commission, generally speaking, than it was under conditions prevailing previously. On the other hand, several witnesses were positive that the Service generally was more efficient.

Your Committee sought to ascertain to what extent the public service had been hampered, hindered or delayed by the Civil Service Commission in the matter of making appointments or filling vacancies. All witnesses were questioned upon this point. Some of them had no serious complaints to make, but others had. They discussed at length the circumlocution of the Commission in such matters and supplied statistics showing that exasperating delays had taken place in many instances. This is illustrated by the Statement of the Department of Agriculture, attached hereto as Appendix "C." Your Committee is satisfied that in many cases the Public Service suffered by reason of these delays. In respect to this aspect of the case, the Commission claimed that these delays were due chiefly to the large volume of work which had been laid upon them and the necessity that classification should precede all other work.

*Proposed Exemption of Certain Classes*

In the Bill submitted to your Committee for consideration it is suggested, but merely by way of illustration, that three classes of employees should be exempted from the operation of the Civil Service Act, and your Committee deems it advisable to embody in its report a brief summary of the evidence submitted with regard to the appointment of these classes:—

*(a) Manual labourers.*

There was fairly general agreement by all the witnesses that in the employment of manual labourers it was unnecessary and inadvisable for the Civil Service Commission to intervene. It was pointed out that manual labourers are required in small or large numbers and usually for a limited time all over Canada; they are engaged upon special work, requiring no technical knowledge, much of their employment is of an emergency nature and such labourers are usually employed locally. It was generally agreed that responsible officers in charge of Government work requiring the employment of manual labour could more quickly and more advantageously employ such labour than could the Commission sitting at Ottawa.

*(b) Postmasters whose remuneration consists in whole or in part of a percentage of the receipts of the office;*

The task of drawing a dividing line between classes of postmasters, the Committee found most difficult. It is obvious that some postmasters, although paid on a percentage basis, are by virtue of their responsibilities, the size of the office, the size of the town in which the office is located, more nearly on par with permanent members of the Civil Service than are postmasters in smaller towns and country localities. The evidence given went to show that the method now followed by the Commission is as follows:—

A vacancy occurs in a small town or rural post office and the Post Office Inspector proceeds to secure a proper person to discharge the duties of postmaster. In the larger and more important offices in the lesser category, the post office inspector proceeds to the locality, investigates the situation, consults with the principal inhabitants, comes to a decision and makes a recommendation to his chief, which recommendation is, in due course, brought before the Civil Service Commission, which invariably act upon the recommendation. In the case of small rural offices, post office inspectors usually base their recommendations to the Commission upon information gathered through correspondence with residents of the locality.

Members of the Civil Service Commission agreed that their intervention in the great majority of these appointments is largely perfunctory and admitted that these appointments were practically in the hands of the department concerned.

*(c) Professional, scientific and technical officers, employed for the performance of duties as such;*

The problem involved in this clause is most difficult of solution. The principal difficulty lies in determining precisely what scientific and technical officers might be.

In dealing with professional personnel, it is obvious that no form of examination by itself alone can disclose the fitness of the applicant for a professional position. The Deputy Minister of Justice made that point very clear when he stated that in securing professional assistants for himself, his position was not unlike the position of a lawyer who is the head of his firm and is about to take a new partner into the business.

In the quarantine service in the selection of medical men, the same idea was put forward, and when your Committee came to discuss specialists in science and agriculture, they were more than ever impressed with the importance of bringing into the Service men who had other qualities than those that can usually be determined by competitive examination.

It was also pointed out that professional men in good standing who were successful in their profession were in many instances loath to submit themselves to competitive examinations, fearing that if they were unsuccessful a certain odium would thereby be reflected upon them. On the whole the evidence disclosed the fact that in numerous cases when professional, scientific and technical officers of special qualifications had to be secured the practice has grown up of permitting the deputy heads of departments to induce competent persons with the necessary qualifications, professional and other wise, to forward applications to the Commission and in the great majority of cases, if not all, where this occurred the department either by direct recommendation or through representatives on the boards appointed to consider applications, succeeded in securing the appointment of the persons thus selected. While not objecting to the practice that has thus grown up as regards certain professional, scientific and technical appointments, your Committee deem it their duty to point out that the method of making these appointments is scarcely fair to innocent applicants who are not familiar with the practice followed. It would appear, therefore, that in the case of all such special appointments where peculiar qualifications are essential the Commission should adopt some more direct method of dealing with them. The facts and necessities of the situation and especially the needs of the public service should be squarely faced and there should be an end to any pretence in the matter.

The Commission agreed that there were a number of classes which might with propriety be removed, if not altogether from the operation of the Act at least from the primary intervention of the Commission. What these classes were the Commission were unable to say. They took the view that before coming to a conclusion in the matter, they must have time to study what the effect would be not only upon the classes which might be removed but upon all those classes which remain. Considering Bill No. 122 in all its phases, your Committee are agreed that the removal of any classes by statute at the present time involves a question of great complexity and the results of such action cannot at the moment be clearly foreseen.

#### *Conclusion*

Under the law as it now stands the Commission are empowered to exempt from its jurisdiction certain classes of employees when in the opinion of the Commission it is not practicable to apply the provisions of the Civil Service Act. Under this provision the Commission has already exempted certain classes of employees and your Committee are of the view that in cases where this has been done the public service has not suffered.

As previously pointed out, the Commission were agreed that certain classes might be removed from the operation of the Act and when asked why these positions had not been removed in the same manner and to the same extent as were the positions in the Soldiers' Settlement Board and the Department of Soldiers' Civil Re-establishment, the Commission replied, first, that the cases were not parallel and that the Commission was not prepared to admit that their continued intervention was impracticable. On the other hand, they were quite sure that it was practicable for them to function with respect to all classes. It then was discovered that a distinction was drawn in the interpretation of the Act between what was practicable or possible on the one hand and what was in the public interest on the other.

From the evidence submitted your Committee have been forced to the conclusion that it is desirable in the public interest that the Commission in consultation with the deputy heads of departments should undertake a careful review of the entire service with a view to determining what further classes of employees should be exempted in whole or in part from the jurisdiction of the Commission and the provisions of the Civil Service Act.

Your Committee submit, considering the problem from all angles, that it would be unwise at present to attempt to name or define these classes by statute. While

a mass of evidence was adduced in an endeavour to reach certain principles that might be a guide in determining exemptions your Committee finally reached the conclusion that the problem was so complex and involved so many considerations that the wisest course to pursue was to suggest certain amendments to the existing law that would leave no doubt as to the powers of the Commission in this regard and that the Commission itself before another session of Parliament should deal with the situation. At the same time your Committee feels called upon to state that in its judgment the present law should be so amended as to give the Commission itself greater freedom of action in determining the methods or plans to be adopted by it in making appointments or promotions, the prime consideration in all cases being the prompt and efficient administration of public business rather than the rigid and slavish interpretation of the law to protect persons already in the service or those desirous of entering the same. In working out this problem your Committee agree there should be the fullest and most cordial co-operation between the Commission and the deputy head of departments with a view to the further improvement of the service in the general public interest.

After hearing all the evidence and noting the demeanour of all the witnesses, your Committee are impressed with the fact that there is a genuine desire on the part of deputy heads of departments to adhere to the idea of a Civil Service Commission, and to work out the details of the same in a practical way, having regard for the efficiency of the service and economy in expenditure.

There was in the opinion of your Committee the same desire and intention on the part of the members of the Civil Service Commission and, as has been set out, your Committee believe that if time is given and the same measure of co-operation and mutual support is shown in the settlement of these difficulties as was evinced by the witnesses who appeared before the Committee, it would then only be a matter of time till the difficulties above mentioned might be satisfactorily adjusted.

In view of all the facts disclosed, and the opinions and conclusions above set forth, your Committee has agreed to report the Bill No. 122, an Act to amend the Civil Service Act, 1918, with the amendments indicated therein.

Your Committee feel, should Parliament adopt the proposed amendments that between now and the next session substantial progress can be made by the Commission in arriving at sound conclusions as to what classes of appointments and promotions might properly be removed in whole or in part from the operation of the Civil Service Act, it being understood that in all such cases the Commission retains the power, as provided in the Act, to make such regulations as are deemed advisable, prescribing how such appointments or promotions are to be dealt with. This, in the opinion of your Committee, would ensure an orderly and methodical procedure whereby the advanced measure of Civil Service reform adopted by Parliament some three years ago may from time to time be modified and adjusted to meet the actual needs of the Service without in any way impairing the chief objects Parliament had in view in enacting the Civil Service Act.

## JOURNALS

OF THE

HOUSE OF COMMONS  
OF CANADA

---

OTTAWA, SATURDAY, 28th MAY, 1921

---

2 o'clock, p.m.

## PRAYERS.

Mr. Mewburn, from the Select Standing Committee on the Canadian National Railways and Shipping, presented the Second Report of the said Committee, which is as follows:—

Your Committee has held twenty-two sittings, and has examined under oath the Chief Executive and Operating Officers in control of the Canadian National Railways and Shipping, as well as one of the members of the Board who is not an officer; two of the officers of the Canadian Pacific Railway Company in charge of purchasing, and three representatives of private shipping interests.

The Executive and operating officials have given to your Committee a very considerable volume of valuable and useful information with reference to the form of organization, the financial conditions, the equipment, the operation, the present business and the future possibilities of both railway and shipping properties of the Government.

The five questions submitted to your Committee are:

(1) What information as to operations of Canadian National Railways and Shipping as conducted by the Board of Directors and Management should, in the public interest, be brought down in Parliament on Question, Motion for production of papers, or otherwise.

(2) When, by what method, and under what conditions, if any, should such information be given, regard being had for the necessity of securing to Parliament and the public all facts requisite for the determination of policy (including finance), and to the Board of Directors the best possible conditions for efficiency of management.

(3) What system of auditing should be adopted, and what extent of detail should be given in the Annual Report.

(4) What, if any, improvement could be made in the general scheme of management.

(5) Whether and for what purposes the said Committee should be continued, and that for the above purposes and for such other purposes as the Committee deem in the public interests, there be referred to the said Committee the Annual Report of the Board of Directors, and that the said Committee have power to examine witnesses under oath, to send for papers, persons and records, and to report from time to time.

The first four of these questions involve principles of far reaching importance and which will be accentuated by the acquisition of the Grand Trunk Railway System. Having regard to the nature and extent of the matters involved in the Reference, and the numerous problems incidental to the ownership and operations of a railway and shipping system such as the Government possesses, any decision by your Committee which would be of any value would of necessity require investigation into the methods pursued by other corporations carrying on similar activities. Owing to the fact that the Committee started upon its labours late in the session, and that the number of other Special Committees working interfered somewhat with its sittings there has not been adequate time to do this, and if the Committee were to report its conclusions now, its judgment would for the most part have to rest upon the ex-parte evidence of the operating officers of our own system.

In the circumstances your Committee is of the opinion that it should deal with the questions submitted to it in the reverse order, and answer the last first.

Question number five reads as follows:—

(5) Whether, and for what purposes the said Committee should be continued; and that for the above purposes and for such other purposes as the Committee deem in the public interests there be referred to the said Committee the Annual Report of the Board of Directors, and that the said Committee have power to examine witnesses under oath, to send for papers, persons and records, and to report from time to time.

Your Committee recommends that this Committee be re-appointed at an early period of the next session of Parliament, with a view of enabling it to carry to completion the inquiry now begun, so that a report might be made early next session, particularly upon the specific submission made to the Committee.

Pending further investigation and evidence and a much more careful consideration of the mass of information brought out before the Committee, the Committee does not feel disposed at this time to make definite reply to questions one to four inclusive.

Your Committee begs to submit herewith for the information of the House a copy of its proceedings and the evidence taken by it, and also certain papers and records submitted to the Committee, but not contained in its proceedings.

*(For Minutes of Proceedings, Evidence, etc., accompanying this Report, see Appendix to the Journals, No. 4.)*

And the question being proposed;

A Message was received from the Senate acquainting this House that the Senate doth agree to the amendment made by the House of Commons to the Bill No. 168 (Letter O4 of the Senate), intituled: "An Act to incorporate Edmonton and MacKenzie River Railway Company," without any amendment.

Also,—A Message informing this House that by mistake, there was included among the amendments made by the Senate to the Bill 118, intituled: "An Act to amend The Bankruptcy Act," which amendments were sent to the House of Commons for concurrence, an amendment adding a Clause 5A to the said Bill, being the first of the said amendments, and requesting that the House of Commons will give leave to the proper officer of the Senate to make the necessary correction by striking out the said amendment.

The Order being read for the House to resolve itself again into Committee of Supply;

Sir George Foster moved,—That Mr. Speaker do now leave the Chair.

And the question being put on the said motion; it was agreed to.

The House accordingly resolved itself again into Committee of Supply.

And the House continuing in Committee;

At six o'clock, p.m., Mr. Speaker took the Chair and left it to resume the same at eight o'clock, p.m.

OF THE

## HOUSE OF COMMONS OF CANADA

---

OTTAWA, MONDAY, 30<sup>TH</sup> MAY, 1921

---

2 o'clock, p.m.

## PRAYERS.

Mr. Speaker informed the House,—That the Clerk had laid on the Table the Twenty-ninth Report of the Examiner of Petitions for Private Bills, which was read as follows:—

Pursuant to Rule 96, Section 2, the Examiner of Petitions for Private Bills has the honour to present the following as his Twenty-ninth Report:—

Your Examiner has duly examined the following Petition for a Private Bill, and finds that all the requirements of the 91st Rule have been complied with:

Of Susan Lee Johnson Bell, for an Act to dissolve her marriage with Henry Harrison Bell, her husband, and that she be divorced from him.

Mr. Sexsmith, from the Special Committee appointed to consider the subject of proportional representation and the subject of the single transferable or preferential vote and the desirability of the application of one or the other or both to elections to the House of Commons of Canada, presented the following as its First Report:—

Your Committee has during the course of its inquiry held several meetings and has listened to witnesses who have testified both for and against the methods suggested.

Your Committee has come to the conclusion that at this time it is not prepared to recommend the application of proportional representation in the next general election as a method of electing members to the House of Commons.

The Committee, however, was impressed with many of the arguments advanced by the advocates of this system and believes that the system merits further study and investigation by the Canadian people. To this end, Your Committee recommends that before action be taken a plebiscite should be held for the purpose of ascertaining the desires of the electors as to the application of the principle of proportional representation with group constituencies.

It must be apparent to all that the present system of election in single member constituencies meets fully the purpose intended only when not more than two candidates are nominated. Recent experiences in elections in Canada have brought home to our people the fact that where three or more candidates present themselves in single-member constituencies, the candidate declared elected may, and often does, represent merely a minority of those voting in the constituency.

Your Committee believes that in constituencies where more than two candidates present themselves the adoption of the alternative vote offers a solution of the difficulty, inasmuch by such method the candidate finally declared elected would represent the choice of the majority of the electors.

The system of the alternative vote has its application only in those constituencies in which more than two candidates present themselves. The work of the elector is simple. Instead of marking a cross opposite the name for which he desires his vote to count his privilege is to place the figures 1 and 2 after the names of his first and second choices. If upon the counting of the ballots it is found that a majority of those voting have placed the figure one (1) after the name of one of the candidates, then that candidate is declared elected. Should, however, it be found that none of the candidates has received an absolute majority, then in such event the following procedure is adopted: The candidate having the lowest number of first choices is dropped and the second choices expressed on his voting papers are transferred to those indicated on such ballots. This procedure of dropping the candidate having the lowest number of votes after each count is continued until but two candidates remain, and the candidate who has the greater number of votes of these two is declared elected.

Your Committee is of the opinion that this system will give a truer reflection of the desires of the voters in the various constituencies than will be obtained where more than two candidates run under our present method of counting the votes.

Your Committee recommends that their proceedings submitted herewith be printed in the appendix to the Journals of this session and that Rule 74 in relation thereto be suspended.

*(For Minutes of Proceedings and Evidence, accompanying this Report, see Appendix to the Journals, No. 5.)*

Mr. Armstrong (Lambton), from the Select Standing Committee on Railways, Canals and Telegraph Lines, presented the Ninth Report of the said Committee, which is as follows:—

Your Committee have had under consideration Bill No. 217 (Letter W5 of the Senate), intituled: "An Act respecting The Calgary and Fernie Railway Company," and have agreed to report the same without amendment.

Mr. Steele, from the Select Standing Committee on Miscellaneous Private Bills, presented the Eleventh Report of the said Committee, which is as follows:—

Your Committee have had under consideration the following Bill, and agreed to report the same without any amendment, viz.:—

Bill No. 218 (Letter D6 of the Senate), intituled: "An Act for the relief of Susan Lee Johnson Bell."

Mr. Steele, from the Special Committee on the future fuel supply of Canada, presented the following as their Second and Final Report:—

On March 23rd the House adopted the following resolution:—

That, in the opinion of this House, the future fuel supply of Canada should be considered by Parliament, and that a Special Committee of the House of Commons

should be forthwith appointed to inquire into all matters pertaining thereto, with power to send for persons, papers and records, to examine witnesses under oath and to report from time to time.

Your Committee was appointed accordingly.

We have held 26 sessions and have examined 37 witnesses..

Among the subjects dealt with in our investigation are the following:—

The fuel resources of Canada according to Provinces;

The production of coal in Canada and the distribution thereof;

The importation and distribution of United States coal;

Transportation of coal by rail and by water throughout Canada;

Industrial and domestic fuel;

Coal substitutes, with special reference to water powers, electricity, peat, coke, gas, oil shales and the carbonization of lignites.

Representatives of the Government of Alberta, New Brunswick and Nova Scotia were heard by the Committee.

Witnesses have been heard also on behalf of the coal operators of Nova Scotia, Alberta and British Columbia.

Labour Unions of Nova Scotia sent four representatives who added materially to the evidence received by the Committee.

The Fuel Supply of Ontario was treated by the ex-Fuel Controller of the Province, representatives of the Retail Coal Dealers' Association and by a representative of one of the largest distributing agencies of the Province.

We have found that with the enormous reserves of coal in the Maritime Provinces, British Columbia and Alberta, these provinces do not suffer to any degree from scarcity of coal—Saskatchewan and Manitoba are gradually using more and more of the coal from the Alberta mines and are also developing by mining and briquetting their own enormous fuel resources. Owing to the absence of the necessary shipping from the St. Lawrence during the war, Quebec, which in 1915 obtained 2,048,222 tons from Nova Scotia, in 1920 purchased only 386,022 tons from that province, the balance of her supply having been obtained from the United States. Ontario, unfortunately, is at present almost entirely dependent on the United States for her coal supply and is in such a position that a prolonged strike in the United States mines or the development of such a situation as would prevent the export of coal from that country, would find that province cut off from its usual source of supply. In such an emergency, the present production of coal in Canada is entirely insufficient to supply the needs of the people of that province, even if the transportation of same were practicable.

The limited time at the disposal of the Committee has not permitted a thorough investigation in all its phases of the problem of Canada's future fuel supply, but we have secured sufficient evidence to warrant us, in our opinion, making the following recommendations to the House:—

1. The vital importance of the fuel supply of the people of any country admits of no argument, but to the people of Canada with its rigorous climate, fuel is one of the chief essentials of life. This being so, your Committee are of the opinion that, in view of the difficulties that our people have experienced during recent years in securing their necessary supply of coal, and in view of the possibility and even probability that the same adverse conditions may be repeated at intervals in the future, it is, in our opinion, most desirable that there should be an officer of the Government appointed for the purpose of keeping in close touch with the fuel situation of Canada. This officer, so far as federal authority may permit, should be clothed with sufficient powers to enable him to cope with any emergency that may arise, in order that our people may not be subjected to unnecessary suffering and inconvenience resulting from

an insufficient supply of fuel for domestic or industrial purposes. He should have authority also to inquire into all phases of the fuel situation and to select such experts as he may deem necessary to carry on the work entrusted to him.

2. That our water powers should be developed to the greatest possible extent in order to supply hydro-electric energy to industrial plants.

3. The electrification of railways located in districts which cannot be economically served by Canadian coal might solve the fuel difficulty there and is worthy the attention of the railways affected.

4. That the transportation of coal by water is an important factor in the cost of coal to the consumer and that, therefore, everything possible tending to reduce the cost of transportation by water should be done.

5. That people should be encouraged to use domestic coal, coke, peat and briquettes when obtainable, instead of imported anthracite.

6. That all consumers, and particularly domestic consumers, should be urged to purchase their coal in the early summer when transportation facilities are at their best for the distribution of coal and that transportation companies be asked to assist in accomplishing this end by granting a substantial reduction in freight rates at such seasons.

7. That Canadian coal operators be urged to produce and store at suitable points in Quebec, Ontario and Manitoba, large quantities of coal, with a view to the production or manufacture of coke for domestic fuel and as a substitute for imported anthracite and also for the production of the by-products thereof.

8. That a campaign of publicity be maintained for the purpose of educating the people of Canada to the need of using Canadian coal wherever possible to do so, and to inform them of the best methods of using the various fuels for both domestic and industrial purposes, in order to obtain the greatest possible efficiency and increase the demand for our national products.

Certain questions have been partially dealt with by your Committee, which in our opinion require further investigation, and among these, we may enumerate:—

Grading and inspection of coal at the mines;

Storage in the large cities of coal which can be delivered at the season of the year when freight cargoes on our railways are the lightest;

The economic use of fuel both in our homes and in industrial plants with the object of securing the greatest possible efficiency.

The distribution of cars for the purpose of coal transportation.

Such matters can well be further investigated by the officer previously suggested.

The future fuel supply of Canada is a great national problem and as such requires national action for its solution.

Your Committee begs to submit herewith for the information of the House a copy of the Evidence taken by it.

And we further recommend that the Evidence taken from day to day during the current session by the Special Committee appointed to consider the future Fuel Supply of Canada, be indexed and issued in pamphlet form to the number of 1,000 copies, and that rule 74, relating thereto, be suspended; and further, that the distribution of the said copies be and is assigned to the Clerk of the Committee, who is hereby instructed to cause them to be forwarded to educational institutions, public libraries, Boards of Trade, Boards of Commerce, and such other public bodies as may desire them.

*(For the Evidence accompanying this Report, see Appendix to Journals, No. 6.)*

Mr. Morphy, from the Select Standing Committee on Public Accounts, presented the Second and Final Report of the said Committee, which is as follows:—

Your Committee herewith submit the evidence taken in connection with above payments for the information of the House.

*(For the Evidence accompanying this Report, see Appendix to Journals, No. 7.)*

On motion of Mr. Armstrong (Lambton), it was ordered,—That, whereas it appears by the Minutes of the Proceedings of the Senate of the 25th May, instant, that the Select Standing Committee on Railways, Telegraphs and Harbours has reported that the Preamble of the Bill No. 38, An Act to incorporate La Compagnie de Téléphone Québec Union Electrique (The Quebec Union Electric Telephone Company), has not been proven to their satisfaction, the fee and charges paid on the said Bill in this House be refunded, less the cost of printing and translation.

Mr. Ethier, from his place in the House, asked leave to move the adjournment of the House for the purpose of discussing a definite matter of urgent public importance, and stated the subject to be: "The suspension of section 326 sub. a and b of the Inspection and Sale Act respecting the sizes of boxes manufactured and offered for sale in Canada and for packing berries for sale in Canada."

Mr. Speaker: It may be open to question whether this is a subject that properly comes within the letter and spirit of Rule 39, but without giving a decision upon that point at the moment, I wish to say to the honourable member that I cannot entertain the motion to-day for the reason that probably the House will be moved into Committee of Supply, and that motion being debatable, the honourable member will have ample opportunity to present the matter to the House. Therefore, it would not be proper at this stage to submit a motion of this character. I shall look into the merits of the motion in the meantime, and if the honourable member is within his rights under Rule 39 in submitting a motion of this character, and if a motion to go into Committee of Supply is not made I shall at a later stage decide on the merits whether the honourable member may proceed.

The Order being read for House again in Committee on Bill No. 120 (Letter M2 of the Senate), intituled: "An Act for the relief of Alphonse LeMoyne de Martigny";

Mr. Stein moved,—That the said Order be discharged and that the said Bill, together with the evidence taken before the Divorce Committee of the Senate, be

referred back to the Select Standing Committee upon Miscellaneous Private Bills for further consideration, with instructions that the said Committee have power to hear further evidence concerning the facts set forth in the preamble of the said Bill.

And the question being put on the said motion; it was negatived, on the following division:—

6. That section sixty be amended to provide that no loans of its funds may be made by a life insurance company to any director or officer thereof or to any agent or other employee thereof whose remuneration is in excess of five thousand dollars per annum, or to any member of the family of such director, officer, agent or employee.

7. That section seventy-seven, respecting the enlargement of the license on the authority of the Treasury Board, be amended by making fuller provisions respecting separate and distinct funds to be maintained in respect of the class or classes of insurance, and the liquidation or winding-up thereof under the said Act or the Winding-up Act.

8. That provision be made for the approval of agents or brokers by the Superintendent before any commission or remuneration is paid to them for soliciting for, or obtaining applications or proposals for insurance, or for collecting premiums from policy holders, and that notice of disapproval by the Superintendent be given in writing to the company affected after an investigation by a Board of Inquiry; with right of appeal from the disapproval of the Superintendent to the Treasury Board.

## HOUSE OF COMMONS

OTTAWA, FRIDAY, 3rd JUNE, 1921

---

11 o'clock, a.m.

PRAYERS.

On motion of Mr. Meighen, seconded by Mr. King, an Address was voted to His Excellency the Governor General, in the following words:—

To His Excellency Victor Christian William, Duke of Devonshire, Marquess of Hartington, Earl of Devonshire, Earl of Burlington, Baron Cavendish of Harwicke, Baron Cavendish of Keighley, K.G., P.C., etc., etc., etc., Governor General and Commander in Chief of the Dominion of Canada.

May it please Your Excellency:

We, His Majesty's dutiful and loyal subjects, the Commons of Canada in Parliament assembled, as well for ourselves as on behalf of those whom we represent, beg leave respectfully to convey to Your Excellency an expression of the deep regret with which the Country has learned of the approaching conclusion of your official connection with Canada.

We beg to assure Your Excellency of the deep appreciation with which we have witnessed your unflagging zeal and devotion in the discharge of the duties devolving upon you as His Majesty's representative in this Dominion. We recall that it was in the midst of the tremendous struggle from which the Empire has victoriously emerged that Your Excellency assumed office. We thankfully remember the value of your services to the Country during days of storm and stress, as we gratefully acknowledge their worth during the difficult period of consequent readjustment.

Your Excellency has by travel acquired a wide and deep knowledge of the country and shown a sympathetic understanding of the ideals and aspirations of its people, and we beg leave to assure you of our appreciation of your interest in, and advocacy of, every national cause, and your support of Art, Science, and Education.

We feel that any acknowledgment of your services would be incomplete without an expression of our sense of the gracious part taken by Her Excellency the Duchess of Devonshire, and by your family, in the varied duties attending your office. Her Excellency's name will ever recall to the people of Canada all that is dignified in an exalted station, and the remembrance of yourself and your family, everything that is lovely in private life.

We venture to hope that when Your Excellency resigns your trust into the hands of the King, you will assure His Majesty of the unalterable loyalty and devotion of the Canadian people to His Majesty's throne and person, of their abiding affection for the Motherland, and of their firm resolve to maintain and strengthen the ties which bind together His Majesty's Dominions.

“MAY IT PLEASE YOUR EXCELLENCY:

“The Commons of Canada have voted Supplies required to enable the Government to defray certain expenses of the Public Service.

“In the name of the Commons, I present to Your Excellency the following Bill:—

“An Act for granting to His Majesty certain sums of money for the public service of the financial years ending respectively, the 31st March, 1921, and the 31st March, 1922.

“To which Bill I humbly request Your Excellency’s assent.”

To this Bill the Clerk of the Senate, by command of His Excellency the Governor General, did thereupon say:—

“In His Majesty’s name, His Excellency the Governor General thanks His Loyal Subjects, accepts their benevolence, and assents to this Bill.”

After which His Excellency the Governor General was pleased to close the Fifth Session of the Thirteenth Parliament of the Dominion of Canada, with the following Speech:—

*Honourable Gentlemen of the Senate:*

*Gentlemen of the House of Commons:*

I am glad to relieve you from further attendance in Parliament after a Session which has been marked by legislation of an important character.

Steps to increase the trade of the country have been taken by the ratification of commercial agreements with France and the British West Indies. It may be hoped that the latter agreement will also result in strengthening the ties which bind together His Majesty’s dominions.

Consequent on Canada’s position as a member of the League of Nations, Acts have been passed to define Canadian nationals, and to authorize the ratification and carrying into effect of the Protocol accepting the Statute for the Permanent Court of International Justice.

The attempt to arrange for joint control by the Dominion and the Province of Ontario of the levels and flow of the Lake of the Woods water system having become abortive, by reason of a Bill concurrent to The Lake of the Woods Control Act failing to pass the Legislature of Ontario, legislation has been enacted declaring certain works in that system to be for the general advantage of Canada and providing for control by the Dominion in the public interest of all parts of the country having rights therein.

A Committee on Pensions, Insurance and Re-establishment has given thorough consideration to these problems and their recommendations have been embodied in legislation which will make more adequate the assistance which the country owes to its ex-service men.

A Bill to regulate the grading of dairy produce has become law. This legislation should conduce to the more systematic and satisfactory marketing of a very important Canadian product with better results to both producer and consumer.

The Act to repeal the Conservation Act and to make provision for the carrying on by the appropriate departments of government of the necessary services hitherto conducted under the Commission of Conservation will result in a reduction of public charges which is so important at the present time.

A further step towards the solution of the problem of the National Railways has been taken in the passage of an Act by virtue of which possession and control of the Grand Trunk Railway System has been acquired and provision made for reviving the

arbitration proceedings to ascertain the value of the stocks. A special committee has conducted an inquiry into certain phases of the problem of the operation of these railways.

The proposals as to revenue contained in the Appropriation Act will it is confidently hoped meet the necessities of the year with a minimum of burden on the people and on the conduct of industry.

*Gentlemen of the House of Commons:*

I thank you for the liberal provision you have made for the public service.

*Honourable Gentlemen of the Senate:*

*Gentlemen of the House of Commons:*

This is the last occasion I shall have the honour of addressing you as my term of office will have expired before you meet again.

May I assure you that I shall always retain a very real affection for Canada and its people and I shall watch your progress with the greatest interest in the sure belief that an ever increasing measure of happiness and prosperity will be the lot of the Dominion.

HIS HONOUR THE SPEAKER OF THE SENATE then said:—

*Honourable Gentlemen of the Senate:*

*Gentlemen of the House of Commons:*

It is HIS EXCELLENCY THE GOVERNOR GENERAL'S will and pleasure, that this Parliament be prorogued until Thursday, the 14th day of July next, to be here holden, and this Parliament is accordingly prorogued until Thursday, the 14th day of July next.

EDGAR N. RHODES,

*Speaker.*
